Basic Principles of the Islamic Worldview Sayyid Qutb, 2006 Basic Principles of Islamic World View Sayyid Qutb, 1993-09 **Islam and Politics in Southeast Asia** Johan Saravanamuttu, 2009-12-16 This book examines the ways in which Muslim politics in Southeast Asia has greatly impacted democratic practice and contributed to its practical and discursive development. It provides comparisons and linkages amongst Muslim majority and minority countries to aid understanding of the phenomenon of Muslim politics in the region as a whole **Malaysian World-view** Mohd. Taib Osman, 1985 This collection of essays on the worldviews of the people in Malaysia focuses on the three main ethnic groups: the Malays, Chinese, and Indians, as well as the indigenous peoples of Sabah. Topics include the Islamic worldview of Man, society, and nature; the traditional Malay socio-political outlook; the language and worldview of the Malay peasants; as well as Malaysian folk tales and drama. The worldview of social belonging among the Chinese and Indians and the traditional worldviews of the indigenous peoples of Sabah are also presented **Contemporary Issues in Islam** Asma Afsaruddin, 2015-08-31 This book deals with certain hot button contemporary issues in Islam, including the Shari'ah, jihad, the caliphate, women's status, and interfaith relations. Notably, it places the discussion of these topics within a longer historical framework in order **Islamic Entrepreneurship** Rasem N. Kayed, M. Kabir Hassan, 2013-12-16 This book discusses the idea that there is a specific Islamic form of entrepreneurship. Based on extensive original research amongst small and medium-sized enterprises in Saudi Arabia, it shows how businesses are started and how they grow in the context of an Islamic economy and society. It argues that as specific Islamic approaches to a wide range of economic activities are being formulated and implemented, there is indeed a particular Islamic approach to entrepreneurship. Examining the relationship between Islamic values and entrepreneurial activity, the book considers whether such values can be more effectively used in order to raise the profile of Islamic entrepreneurship and also to promote alternatives to development in the contemporary business environment. The book analyses the nature of entrepreneurship and the special qualities of Islamic entrepreneurship and discusses how the Islamic approach to entrepreneurship can be encouraged and developed further still **Studies in Islamic Social Sciences** Masudul Alam Choudhury, 1998-03-15 This book is a project toward the continuing theme of the Islamic worldview of economy, society, institution, interactions in national and international forums, wherein individual and group preferences are created and sustained by the regeneration of knowledge into higher levels of realising truth. Truth and the medium of knowledge for realising higher levels of truth are argued to be the only most immutable character of all systems *Foundations of a Sustainable Economy* Umar Burki, Toseef Azid, Robert Francis Dahlstrom, 2021-07-28 This book addresses current practices related to sustainable development, its challenges, and the future. People belonging to different genders, regardless of their age, social class, and education, should be equal as citizens and individuals and identical in their rights and responsibilities. The business sector, authorities, societies, and religious circles have the potential to play a

fundamental role in curbing social ills and the degradation of the environment in this modern world The authors of this book argue that without good governance the status of a human being is unlikely to improve They make the case that to achieve sustainability government society and the economy must ensure a platform for people to participate in decision making and benefit from the rights they are accorded By covering a range of perspectives across economic social and moral life the book will shed light on the problems and possible solutions to sustainable development and the triple bottom line of people planet and profit under the umbrella of morals and divine law This will be a useful guide for undergraduate and postgraduate students across multiple disciplines such as economics religious studies business studies political science anthropology and sociology
