Control and Resistance Lara Anderson, 2020-02-24 Control and Resistance reveals the various ways in which food writing of the early Franco era was a potent political tool producing ways of eating and thinking about food that privileged patriotism over personal desire The author examines a diverse range of official and non official food texts to highlight how discourse helped construct and contest identities in line with the three ideological pillars of the

regime autarky prescriptive gender roles and monolithic nationalism Official food discourse produced an audience with a taste for local foodstuffs and also created a unified gastronomic space in which regional cuisines were co-opted for the purposes of culinary nationalism The author discusses a genre of official texts directed solely at women which demanded women's compliance and exclusive dedication to domesticity Alongside such examples *Control and Resistance* includes texts that offered resistance to the Franco hegemony Food texts have traditionally been viewed as apolitical because of their connections with domesticity so they were not subject to the same degree of censorship as other published works Accordingly food writing was at times more capable of offering disruptive or resistant textual spaces than other forms of discourse
