## **Air Power Confronts An Unstable World:**

*Air Power Confronts an Unstable World* Richard Hallion, 1997 The contributors are among the most distinguished authorities on air power in the English speaking world and include both academics and senior serving and retired officers from the USA Great Britain and Australia This is the first book to tap the experience of such a distinguished group of authors writing in a post Gulf War post Cold War environment *Routledge Handbook of Air Power* John Andreas Olsen, 2018-02-20 The Routledge Handbook of Air Power offers a comprehensive overview of the political purposes and military importance of air power Despite its increasing significance in international relations statecraft and war the phenomenon of air power remains controversial and little understood beyond its tactical and technological prominence This volume provides a comprehensive survey designed to contribute to a deep and sophisticated understanding of air power Containing contributions from academics and service personnel the book comprises five sections Part I Foundation the essence of air power Part II Roles and functions delivering air power Part III Cross domain integration applying air power Part IV Political social economic environment air power in its strategic context Part V Case studies air power in its national context Examining a series of themes and factors that contribute to an understanding of the utility and applicability of air power this Handbook focuses on the essence of air power identifies its roles and functions and places air power in its wider strategic and national contexts The Routledge Handbook of Air Power will be of great interest to students of air power strategic studies defence studies security studies and IR as well as to military professionals and policy makers *Air Power* Jeremy Black, 2016-03-10 This essential book offers a compelling and original interpretation of the rise of military aviation Jeremy Black one of the world's finest scholars of military history provides a lucid analysis of the use of airpower over land and sea both during the two world wars and the more limited wars of the twentieth and twenty first centuries Considering both the theory and praxis of air power the author begins with hot air balloons and then highlights the use of zeppelins piston engine fighters jet bombers and finally the so called Military Revolution of today While discussing the growth of American and European military aviation Black a pioneer in emphasizing the importance of non Western military history for understanding global developments also traces the emergence of air power in Latin America Africa and Asia Black breaks new ground by exploring not only conventional war both inside and outside Europe but also to the use of air power in unconventional wars especially critical given to the spread of insurgencies around the globe He vividly describes traditional debates over the pros and cons of strategic bombing and aircraft carriers versus battleships and gives equal attention to managerial doctrinal and technological innovations The author shows how better management resulted in increasing lethality of close air support of the RAF during the latter part of World War II and at the same times highlights the limits of air power with case studies of the two Gulf Wars The author goes beyond our traditional understanding of air power associated with bombing and fighter engagements adding the important elements associated with naval power including ground logistics support anti aircraft

measures and political constraints As he explains air power has become Western politicians weapon of choice spreading maximum destruction with the minimum of commitment His current and comprehensive study considers how we got to this point and what the future has in store Anyone seeking a balanced accurate understanding of air power in history will find this book an essential introduction

**Understanding Contemporary Air Power** Viktoriya Fedorchak,2020-04-06 This book aims to explain air power to both military and civilian audiences in an accessible manner approaching the topic in a balanced and systematic way The past 100 years illustrates that air power is an inevitable feature of any type of modern warfare It has a key role to play in any of the three main operational environments conventional inter state wars peace support operations and counterinsurgencies This book examines the strengths and challenges of using air power in these situations and each type of operation is explained using modern and historical examples with an emphasis on the relevant lessons for the contemporary and future use of air power The book also looks into the complexity of media coverage of air warfare and changes in the public perception of air power in recent years The specifics of structuring national air forces is also discussed along with the future of air power based on current trends One of the enduring themes in the book is the necessity of inter service and cross domain integration emphasizing the increasingly important role of cyber and space domains in the future of network centric warfare This book will be essential reading for students of air power and air warfare and recommended reading for students of international security strategic studies defence studies and foreign policy

Seeking Shadows In The Sky: The Strategy Of Air Guerrilla Warfare Major Patricia D. Hoffman,2015-11-06 This study analyzes the feasibility of guerrilla warfare as the basis for a strategy of airpower employment for a weak air force confronting an opponent with a stronger air force The analysis begins with a distillation of the theory of guerrilla warfare into five elements essential to its success superior intelligence security mobility advantage surprise and sustainment The author then compares the ground combat environment of the traditional guerrilla with the airpower environment of the potential air guerrilla and concludes that these five elements can be met in the airpower environment provided the weak force has sufficient ingenuity and the necessary resources An investigation of recent trends in technology and the prevailing strategic environment indicates that it increasingly possible for a weak force to obtain these resources The author assesses that air guerrilla warfare is a viable warfighting strategy but points out that the likelihood of a weak force actually adopting air guerrilla warfare will depend on its regional security needs and its resolve to protract a conflict The study concludes that air guerrilla warfare is a credible threat to a stronger opponent To meet this threat the author recommends that the United States re examine its intervention strategy reinforce its policy of strategic engagement and research both airpower and non airpower means to neutralize an elusive guerrilla air force

British Air Power Viktoriya Fedorchak,2018-09-20 British Air Power demonstrates how the Royal Air Force sought to adapt in regard to the roles it could play and the conflicts in which it could be used as well as the evolution of air power doctrine at a time of rapid changes in national politics and in the international arena The development

of new concepts and theories the evaluation of operational experience the political environment and budgetary cuts and the role of academics and personalities in development of doctrine are thus all explored to show changes in strategic thinking regarding air power Fedorchak further examines the influence of jointery the process of co operation between the army navy and air force on thinking conceptualising teaching and using air power in recent operations in Afghanistan Iraq Libya and Syria A contemporary complement to more historical studies British Air Power provides a very detailed look at the development of air land doctrine in the RAF since the turn of the century Strategic Air Power in Desert Storm John Andreas Olsen,2013-11-05 In response to the Iraqi invasion of Kuwait on the second of August 1990 a small group of air power advocates in the Pentagon proposed a strategic air campaign Operation Desert Storm designed to drive the Iraqi army from Kuwait by a sustained effort against the major sources of Iraqi national power John Andreas Olsen provides a coherent and comprehensive examination of the origins evolution and implementation of this campaign His findings derive from official military and political documentation interviews with United States Air Force officers who were closely involved with the planning of the campaign and Iraqis with detailed knowledge and experience of the inner workings of the Iraqi regime

**Responsibility of Command** Mark A. Bucknam,2003 In this study Col Mark A Bucknam examines the role that theater level commanders in the UN and NATO played in influencing airpower over Bosnia between April 1993 and December 1995 He presents it in a chronological order that offers a coherent account of Operation Deny Flight This study challenges assumptions about military leaders their motivations and the state of civil military relations during the Bosnia conflict

The Burning Blue Paul Addison,Jeremy A. Crang,2000 This book reviews the Battle from both the British and the German sides drawing on the latest research by military historians in both countries It brings together for the first time the facts the legends the memories and the judgement of historians in a panoramic re assessment of one of the most famous battles of all time **German Knights of the Air, 1914-1918** Terry C. Treadwell,Alan C. Wood,1997 German Knights of the Air

documents the history of the prestigious Ordre pour le Merite and the lives of its eighty one recipients Popularly known as The Blue Max the award was presented to well known heroes such as Richthofen Goring Udet Immelman and Boelcke in addition to dozens of fighter pilots whose tales are told for the first time ever in these pages Providing unique insight into the fragile world of World War I German pilots and observers this book includes the stories of men like Peter Rieper a balloon observer von Groner an aerial photographer and Bernert who ended the war with 28 victories to his credit despite a disability that he hid from doctors and instructors These incredible stories are enhanced by numerous photographs *Supersonic Flight* Richard Hallion,1997 Hallion describes the basic problems of supersonic flight looking at Geoffrey de Havilland s fatal attempt to break the sound barrier in 1946 Chuck Yeager s successful flight in 1947 and the first aircraft to reach twice the speed of sound **The Politics of Coercion** Ellwood P. Hinman,2002 The focus of this thesis is the following research

question What does coercion theory suggest about the use of airpower in post Cold War conflict This thesis aims to

determine if any of the existing theories of coercion namely punishment risk decapitation and denial can stand alone as an adequately coherent substantive and codified approach Three important attributes of conflict in the post Cold War era 1 limited non protracted war 2 political restraint and 3 the importance of the better state of peace provide a framework for this analysis If these existing constructs fail the test the study will investigate the potential content and applicability of a new theory for post Cold War coercive airpower

**Recent Themes in Military History** Donald A. Yerxa,2008 This book offers an inviting survey of recent developments in military studies from leading voices in the field Deemed the New York Review of Books for history Historical Speaking has emerged as one of the most unusual historical publications in recent years actively seeking out contributions from a pantheon of leading voices in historical discourse from both inside and outside academia Recent Themes in Military History represents some of the best writing on military history to appear in Historically Speaking in the past five years Using multiple formats forums interviews and individual essays this collection provides contrasting views on such topics in military history as the existence and function of military revolutions in the past and present the experience of soldiering and combat the particularly violent and gruesome nature of twentieth century warfare and projections of nature of future wars The ebb and flow of discourse between contributors also illustrates how the study of history is an ongoing conversation wherein discovery and debate lead to deeper understanding and development of fresh opportunities for further inquiry The contributors are Andrew J Bacevich Eric Bergerud Jeremy Black Max Boot Jeffrey Clarke Antulio J Echevarria II Niall Ferguson Colin S Gray T X Hammes Victor Davis Hanson Max Hastings Richard Holmes Peter Paret Geoffrey Parker and Dennis Showalter
