China In Change An Approach To Understanding:

China in Change Miner Searle Bates,1969 **China's Changing Welfare Mix** Beatriz Carrillo,Jane Duckett,2011-06-10

This book draws attention to two neglected areas in the growing body of research on welfare in China subnational variation and the changing mix of state and non state provision The contributors to this volume demonstrate the diversity of local welfare provision that lies behind broad national policies and programmes Their focus on local diversity is particularly relevant to understanding the welfare system in China because national state programmes are so often organized by local governments in line with the specifics of their economic and social development At the same time that social and economic development is itself independently creating an array of different conditions that shape non state family business and third sector welfare roles Through chapters that draw on original research in eight provinces the book adopts a local perspective to illustrate and explain some of the transformations that are under way and discuss not only local government initiatives and programmes but also the services and support provided by families informal social networks and community or third sector organizations as well as those delivered by private businesses on a commercial for profit basis This book will be of interest to students and scholars of Chinese society social policy and Chinese studies more widely Beatriz Carrillo is Lecturer in Asian Studies at the University of Technology Sydney Australia Jane Duckett is Professor of Chinese and Comparative Politics at the University of Glasgow UK *Spectrum* ,1969 *Women and Heroin Addiction in China's Changing Society* Huan

Gao,2013-06-24 Accompanying China s economic reform and open door policy in 1978 illicit drug use emerged in the late 1980s and gradually developed into a serious social problem Heroin was the dominant illicit drug consumed in the new drug epidemic and the number of female heroin users has increased rapidly in the country While heroin use in China is soaring little is known about women s heroin use in the context of China s rapidly changing society Using intensive interviews with 131 female heroin users this book explores the careers of female heroin users in China under changing social contexts in the reform era It investigates the impacts of sociological and individual factors on women s heroin use in each developing stage of their drug use careers It also examines the social consequences of women s heroin use by looking at connections between women s heroin use and criminality and the change in women s social relations after heroin use Lastly the book analyzes and ascertains the impact of current narcotics control policies on women s drug use careers This groundbreaking book has important policy implications for both China and the international society in the context of increasing global concern about women s substance abuse **International Engagement in China's Human Rights** Titus Chen,Dingding

Chen,2015-07-03 Since the Tiananmen Square incident in 1989 there has been increasing international pressure on China to improve its approach to human rights whilst at the same time the Chinese government has itself realised that it needs to improve its approach and has indeed done much to implement improvements This book explores systematically the international engagement in human rights in China and assesses the impact of such foreign involvement It looks at particular

areas including criminal justice labour and religious freedom considers the processes by which international pressure is brought to bear and the processes by which improvements are implemented in China and concludes that whilst China's human rights record has improved more than many people realise further improvements are still needed [The Development of the Logical Method in Ancient China](#) Shi Hu,1922 **China's Global Disruption** Chi Lo,2021-01-11 China's Global Disruption Myths and Reality is the first book to bring world systemic analyses of China into dialog with domestic analyses and in so doing to show how each can challenge or refine the assumptions of the other ultimately showing that much of the global common sense about China is misinformed *The Development of the Logical Method in Ancient China* □ □,1922 The object and scope of the present study I have indicated in the introductory chapter I wish only to state here the methods of treatment employed in this essay and its main points of departure from traditional scholarship in China Since the present essay is intended to be an historical study the first problem it has had to face is the choice of source material It is impossible for an occidental reader to imagine the tremendous burden of tradition which I have found necessary to otherthrow in writing this work Preface **Colloquy** ,1970 *China as context* Di Wu,Andrea E. Pia,Ed Pulford,2025-09-02 Decades old calls to recognise China's significance for anthropological theory and the social sciences are more urgent than ever Yet Chinese grounded ideas remain marginal with China often seen as an Other rather than a source of widely applicable theory Drawing on East Asian postcolonial scholarship this volume argues that without taking China seriously as a knowledge producer and a key agent in a post global world social scientists risk misinterpreting the global present As Western globalisation wanes and anthropology reassesses the relationship between ethnography and theory we show how China must be understood as an ordinary integral context for research worldwide **Defining a changing China in global politics** Chun Lin,2000 *Service Science in China* Jiazhen Huo,Zhisheng Hong,2013-01-06 A service economy era is coming As the basic discipline of service dominant era service science mainly studies common rules of service activities aiming to provide theoretical bases for creating service value in the new era The book which integrates knowledge of service management operational management logistics and supply chain management constructs a research system for this emerging discipline Service science research system constitutes service philosophy resource allocation operational management and service technology Many cases about China's service enterprises are incorporated in the book in the hope of providing readers an insight into not only service science but also the development of China's service economy *The Modernization of China* Gilbert Rozman,1981 [The Arctic in China's National Strategy](#) Martin Kossa,2024-02-02 This book locates the Arctic within the context of the People's Republic of China's PRC national strategy of the Great Rejuvenation of the Chinese Nation Drawing on a range of sources published in Chinese and English the author analyses Beijing's Arctic scientific activities and technological capabilities including the research infrastructure long term goals and the significance for China's understanding of the region its Arctic identity and international perceptions Examining the region from the

perspective of the Comprehensive National Security Outlook developed during the Xi Jinping era the book focuses on military economic technological and political components and considers the PRC s official and academic discourses and the views of the region within bilateral relations with Arctic states outlining a science security and governance nexus in China s Arctic engagement This volume will be of interest to scholars and students of Arctic geopolitics Chinese studies security studies and foreign policy analysis It will also appeal to policymakers and defence analysts in Arctic states and other regional stakeholders

The Week in China ,1928 *China Monthly Review* ,1926 **Perspectives on Communication in the People's Republic of China** James A. Schnell,1999-10-13 China s development from a traditional society to a technologically advanced completely modern republic has been extraordinarily rapid Due to developments since the mid 1980s Chinese daily life for many has jumped directly from that constrained by an agricultural economy to that liberated by the information age In *Perspectives on Communication in the People s Republic of China* James Schnell chronicles these changes and their impact on mass communication He looks closely at Chinese newspaper reports and television programs and listens to government officials and people in the street providing readers with an insider s view of the current state of communication in China from the political to the personal Grouped under the major categories of politics education and health are observations gleaned from Schnell s nine visits to China as a visiting scholar and military attach Ethnographic case studies are supported by examples from the media and supplemented with extensive references Schnell concludes his fascinating look at contemporary China with an examination of cross cultural communication on the most sophisticated level that between President Clinton and Chinese officials during Clinton s 1998 visit to China This book is must reading for students of Asian studies with an interest in communications and is ideal supplementary reading for courses in both communications and Asian studies
