*Psychotherapy and Personal Change* Ahron Friedberg,Sandra Sherman,2020-12-23 *Psychotherapy and Personal Change Two Minds in a Mirror* offers unique day

to day accounts of patients undergoing psychotherapy and what happens during talk therapy to startle the complacent conscious mind and expose the unconscious It is a candid moment by moment revelation of how the therapist s own memories feelings and doubts are often as much a factor in the process as those of the patient In the process of healing both the therapist and the patient reflect on each other and on themselves As the therapist develops empathy for the patient and the patient develops trust in the therapist their shared memories feelings and associations interact and entwine almost kaleidoscopically causing each to ask questions of the other and themselves In this book Dr Friedberg reveals personal insights that arose as he recalled memories to share with patients These insights might not have arisen but for the therapy which operates in multiple directions as patient and therapist explore the present the past and the unknown Readers will see the therapist like the patient as a complex vulnerable human being influenced by parents colleagues and friends whose conscious and unconscious minds ramify through each other It is a truism of psychotherapy that in order to commit to the process whatever the reservations or misconceptions one must understand that therapy is not passive The patient must expect to become personally involved with the therapist The patient learns about the therapist even as the therapist helps the patient to gain insight into him or herself Psychotherapy and Personal Change shows how this exchange develops and how each actor is affected Through specific examples the book raises the reader s understanding of what to expect from psychotherapy and enhances his her insight into therapy that he or she may have had already
