Aging And Developmental Disability Current Research Programming And Practice Implications:

Aging and Developmental Disability Joy Hammel, Susan Nochajski, 2020-03-23 Aging and Developmental Disability Current Research Programming and Practice Implications explores research findings and their implications for practice in relation to normative and disability related aging experiences and issues This valuable book discusses the effectiveness of specific interventions targeted toward aging adults with developmental disabilities such as Down s Syndrome cerebral palsy autism and epilepsy and offers suggestions for practice and future research in this area

Disability Through the Life Course Tamar Heller, Sarah Parker Harris, 2012 The SAGE Reference Series on Disability is a cross disciplinary and issues based series incorporating links from varied fields that make up Disability Studies This volume tackles issues relating to disability through the life course

Health Aspects of Aging Gari Lesnoff-Caravaglia, 2007 This second edition of Health Aspects of Aging serves to broaden the perspectives of societal change due to increases in life expectancy as well as the effects of age related changes as they impinge upon the provision of health care for older persons The growing presence of a large number of persons aged 65 and older worldwide has propelled a re evaluation of the nature of life that is protracted to 100 years and beyond The emphasis in this second edition is to replace the prevailing problem approach to aging by a problem solving approach The problem solving approach of this volume has allowed for the incorporation of the concept of new social structures and the development of intervention and prevention strategies along with new technologies Such new products and health care measures include those that are deliberately aimed to offset debilities due to normal age changes the onslaught of diseases incongruous environments and altered social states Such a multi disciplinary perspective underscores the fact that aging permeates not only biological systems but clinical medicine economics ethics and the very fabric of society The chapters in this volume address these issues from the standpoints of diverse disciplines and professional positions Since biological changes are primary issues the aging process is largely described from the perspective of biological changes related to age and to particular dysfunctions The environmental features and the potential introduction of technological interventions are interspersed within chapters as well as finding primary focus in particular chapters The maturity of the technology described in the chapters varies from devices and systems that are nearly ready to be marketed to concepts and prototypes that are still in the design and developmental stages in the laboratory The relationship between the provision of appropriate health care and the responsible utilization of technologies as described in this volume will serve to enhance the nature of life extension

Community Mobility William Mann, 2005 For older adults having affordable easy to use and flexible transportation options is vital to their quality of life Community Mobility provides physical and occupational therapists with recent research findings on older driver assessment remediation rehabilitation and the use of alternatives to the car in the event that older adults need to retire from driving This unique book addresses changes in driving patterns over time the impact of climate conditions on driving mental and physical health issues self regulation by drivers and driver safety

Health of Women with Intellectual Disabilities Patricia Noonan-Walsh, Patricia Walsh, Tamar Heller, 2008-04-15 The first interdisciplinary book taking a contextual approach to the developing health needs of women with intellectual disabilities It considers the social economic and political contexts of health promotion Its concise but comprehensive evidence base makes it a unique reliable source for a wide readership

Encyclopedia of Disability Gary L Albrecht, 2006 Presents current knowledge of and experience with disability across a wide variety of places conditions and cultures to both the general reader and the specialist
