could make their breaking news photos available on the street the day after an event occurred George Alfred Barrowclough was one of those photographers Barrowclough had the eye of an artist and the nose of a newsman His images of Vancouver and the surrounding areas stand out over those of other postcard photographers of his day in that they are more people centred and action oriented capturing the lives and appearances of the people living in and around Vancouver in the decade before the Great War Drawing from postcards that Barrowclough produced between 1908 and 1912 award winning authors Fred Thirkell and Bob Scullion have selected images for Breaking News that showcase the photographer s focus on people and events In Vancouver in those years you looked to newspapers for words you looked to Barrowclough for news This is Fred Thirkell and Bob Scullion s sixth book in the postcard genre Several of their earlier books have also won City of Vancouver Heritage awards Healthy Food Initiatives, Local Production and Nutrition United States. **The African Food Environments** Amos Laar,Kaleab Baye,Anna Lartey,Francis Zotor,Gershim Asiki,2023-09-05 In many respects the continent of Africa is in transition Prominent among them currently is the nutrition transition One consequence of the nutrition transition is the increase in prevalence of nutrition related non communicable diseases NCDs such as obesity type 2 diabetes cardiovascular diseases and certain cancers Although NCDs are a global public health problem the rate of increase in NCDs morbidity and mortality in some African countries is staggering This surge has been linked to modifiable environmental factors factors that facilitate the consumption of obesogenic energy dense nutrient poor foods rather than unrefined cereals fruits and vegetables It has long been recognized that the physical and social environments in which people live work and eat are critical determinants of their health More recently there has been a greater focus on the food environment as a key determinant of health Available evidence shows that unhealthy food environments drive unhealthy diets and unhealthy diet is one of four main risk factors for NCDs
