Hunter, 2019-04-22 This textbook helps students and readers navigate the various factors ranging from the legacy of the past ethnic sectarian differences and cultural rivalry to the impact of colonial rule modernization and state building plus the evolving nature of the international political system and great power policies in shaping Arab Iranian relations in the last seven decades The first part of this book looks into factors such as history ethnic sectarian and cultural issues that have shaped Iran's relations with Arab states It explores the impact of the process of modernization and state building in the Arab world on these relations plus the legacy of colonialism and the shifting dynamics of international politics and the evolution key global players policies towards Iran and the Arab states The second part examines case studies in the evolution of Iran's relations with several key Arab states including Egypt Syria and Lebanon Iraq Saudi Arabia and the smaller Persian Gulf Arab states By highlighting the complex set of factors and their interactions that have shaped Arab Iranian relations the book hopes to be a corrective to the simplistic and reductionist interpretations of these relations This approach shows how a variety of factors and their interactions have shaped these relations sometimes they have exacerbated the conflictual aspects of these relations and at other times have fostered accommodation and even cooperation **Arab-Iranian Relations Since**

the Arab Uprisings Mahjoob Zweiri, 2023-09-01 Unlike most writing on Arab Iran relations which looks at specific episodes and specific countries this book taking a long term view assesses the overall dynamics of the relationship discussing in particular how far religion or politics drives the relationship It argues that although Iran asserts that religion is a key factor underpinning a coherent approach to international relations in fact what turns out to be the key factor is the politics of particular circumstances and Iran's specific interests The book considers Iran's differing reactions to the Arab uprisings of 2011 onwards showing that while Iran supported the uprisings in some countries it sided with repressive governments in other countries The book also examines Iran's reaction to its own outbreak of popular discontent in 2009 which was controlled by what has been considered as severe repression and explores how Iran is viewed by ordinary people in different Arab countries Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com>
