Prodependence Robert Weiss, 2018-09-18 Prodependence a new psychological term created by Robert Weiss to describe healthy interdependence in the modern world turns this around Rather than preaching detachment and distance over continued bonding and assistance as so many therapists self help books and 12 step groups currently do prodependence celebrates the human need for and pursuit of intimate connection viewing this as a positive force for change Simply stated prodependence occurs when attachment relationships are mutually beneficial with one person

[The New Codependency](#)
Melody Beattie, 2008-12-30 *The New Codependency* is an owner's manual to learning to be who you are and gives you the tools necessary to reclaim your life by renouncing unhealthy practices. In *Codependent No More*, Melody Beattie introduced the world to the term codependency. Now a modern classic, this book established Beattie as a pioneer in self-help literature and endeared her to millions of readers who longed for healthier relationships. Twenty-five years later, concepts such as self-care and setting boundaries have become entrenched in mainstream culture. Now Beattie has written a follow-up volume, *The New Codependency*, which clears up misconceptions about codependency, identifies how codependent behavior has changed, and provides a new generation with a road map to wellness. The question remains: What is and what is not codependency? Beattie here reminds us that much of codependency is normal behavior. It's about crossing lines. There are times we do too much, care too much, feel too little, or overly engage. Feeling resentment after giving is not the same as heartfelt generosity. Narcissism and self-love, enabling and nurturing, and controlling and setting boundaries are not interchangeable terms. In *The New Codependency*, Beattie explores these differences effectively, invoking her own inspiring story and those of others to empower us to step out of the victim role forever. Codependency, she shows, is not an illness but rather a series of behaviors that, once broken down and analyzed, can be successfully combated. Each section offers an overview of and a series of activities pertaining to a particular behavior: caretaking, controlling, manipulation, denial, repression, etc., enabling us to personalize our own step-by-step guide to wellness. These sections, in conjunction with a series of tests allowing us to assess the level of our codependent behavior, demonstrate that while it may not seem possible now, we have the power to take care of ourselves, no matter what we are experiencing.

Triumph Over Darkness (Volume 2 of 2) (EasyRead Super Large 24pt Edition) , **Challenging Codependency** Marguerite Babcock, M. Christine McKay, 1995 In the field of addiction

research and counselling there has been an increasing investment in the theory of codependency a theory that holds women partly responsible for perpetuating the alcoholism and addiction of their male partners This is the first anthology of feminist essays that presents a cogent critique of this theory The unifying feature of the eighteen essays collected here is the revelation that solid evidence contradicts rather than supports the theory of codependency Its assumptions are found to be unsubstantiated in theory and practice The contributors to the volume explore the history of codependency theory and look at reasons for its growing popularity in medical model politics A central theme emerges that codependency theory is essentially misogynist in nature the result of a male backlash against feminism The collection leaves no doubt that this backlash is effective These essays reveal the many ways that codependency therapy promotes advice and counselling that is damaging and ultimately fails women seeking help for their distress This anthology aimed at professionals as well as readers at large reveals a remarkable body of literature questioning the validity of popular addictions philosophy about women and the quality of the scholarship that supports those theories *Publishers Weekly* ,1990 *Women's Studies Index* ,1989
