**Dialogues with Degas** Kathryn Brown, 2023-12-14 Dialogues with Degas demonstrates the ongoing relevance of Edgar Degas to 20th and 21st century ideas and art practices The first in depth examination of this major artist s impact on contemporary art this book explores how contemporary practitioners have used Degas s creativity as a springboard to engage imaginatively and critically with themes of colonialism gender race and class Individual chapters are devoted to dialogues between Degas s art and works produced by Frank Auerbach Cecily Brown Xinyi Cheng Ryan Gander Maggi Hambling Damien Hirst Howard Hodgkin Chantal Joffe Leon Kossoff R B Kitaj Juan Mu oz Paula Rego Jenny Saville Yinka Shonibare Cy Twombly and Rebecca Warren Through close analyses of selected paintings drawings prints and sculptures Kathryn Brown explores how Degas s technical and compositional experiments have been extended or challenged in innovative ways By experimenting with the materials and methods of existing works contemporary artists generate visual palimpsests that make new demands of the viewer and prompt a reconsideration of ideas that have informed histories of 19th century French art The book overturns familiar conceptions of influence by eschewing a genealogical approach and prioritizing instead the analysis of non linear encounters between artworks This encourages a new conception of the agency of visual artefacts and of the conversations they are capable of entertaining with each other While this study sheds new light on Degas s art and that of his interlocutors it also has methodological significance for the writing of art history

**Pictorial Narrative in the Nazi Period** Deborah Schultz, Edward Timms, 2013-10-31 This book investigates creative responses to the Nazi period in the work of three artists Felix Nussbaum Charlotte Salomon and Arnold Daghani focusing on their use of pictorial narrative It analyses their contrasting aesthetic strategies and their innovative forms of artistic production In contrast with the autonomous modernist art object their works were explicitly linked with the historical conditions under which they were produced the pressures of persecution and exile Conditions in the slave labour camps and ghettos in the Ukraine which shaped the paintings and drawings of Daghani are contrasted with the experiences of exile in Belgium and France which inspired Nussbaum and Salomon In defiance of conventional artistic practice they produced word image combinations that can be read as narrative sequences incorporating specific references to political events While there has been a wealth of literary philosophical and historical studies relating to the Holocaust aesthetic debate has developed less extensively This is the first comparative study of three artists who are only belatedly achieving recognition and the recent reception of their work is evaluated By identifying the aesthetic principles and narrative strategies underlying their work the book reassesses their achievement in

Epigonism and the Dynamic of Jewish Culture Shlomo Berger, Irene E. Zwierny, 2008 The articles collected in this volume were originally presented at a summer colloquium in Oxford in 2004 The epigone is generally believed to be an imitator deprived of an independent original talent He necessarily follows in someone else's footsteps a source of inspiration that can or indeed must be identified The epigone can operate only after a certain span of time during which he has studied his example and learned how to follow in his master's footsteps An epigone is always influenced by it consciously or unconsciously by another person or by the surrounding cultural climate The epigone is per definition second rate Furthermore it is believed that the epigonic product cannot have an independent value Its only value lies in demonstrating a condition in culture a spirit of the area a trend in the arts philosophy or any other human occupation Rather than continuing to view epigonism as a natural if regrettable part of the cultural process an inevitable secondary stage within the development of any corpus the essays in this volume approach the phenomenon from a

perspective that is at once more neutral and more positive They do so not by rehabilitating the quality of the epigone's output but by redefining his role within the cultural process per se In each of these contributions epigones appear as the true carriers of in this case Jewish culture Rather than mere witnesses or at best historical mirrors of primary canonical cultural codes and modes they represent one of the dynamic forces within the development of a culture For the epigone is not merely imitating but also disseminating It is not the isolated peaks of the cultural panorama that the articles in this book seek to map out but the modest planes that allow us to travel the landscape in the first place
