Criteriaologic Problem Critical Study:

The Criteriaologic Problem Olof Franck, 1988 John Hick's Pluralist Philosophy of World Religions Paul Rhodes Eddy, 2020-08-26 This title was first published in 2002 One of the most fascinating and controversial interpretations of religious diversity is religious pluralism According to John Hick's model of religious pluralism all the world's great religions are equally valid ways of understanding and responding to the ultimate spiritual reality This book offers an exposition of and critical response to John Hick's model Introducing the various interpretations of religious diversity being discussed today this book presents constructive suggestions as to how things could be further developed to offer a more accurate less confusing presentation of the various options in the theology of religions The standard threefold typology of responses to religious diversity exclusivism inclusivism and pluralism are explained and defended Hick's pluralist interpretation of religious diversity is traced culminating in a critical assessment of Hick's pluralistic model and an up to date summary of a variety of critiques directed toward Hick's proposal Paul Rhodes Eddy concludes that Hick's present model is ultimately unsuccessful in retaining both of his long cherished goals a robust religious realism and a consistent religious pluralism whilst overcoming the most difficult problem for the pluralist the fact that the world's religions understand the divine in often contradictory ways

Ogden, 2018-11-06 As artists not uncommonly keep sketchbooks so thinkers often write notebooks Schubert Ogden is a thinker for whom writing notebooks has been an essential discipline throughout his long career of trying to think as a Christian systematic theologian By his own confession constantly writing down his thoughts so he could discover what he wanted to think has always been as necessary to learning how to think theologically as constantly reading in order to think fruitfully with the minds of others This volume is a selection from the indefinitely larger corpus of Ogden's notebooks now archived in the Drew University Library All arising from his thinking as a theologian the entries selected are addressed to some of the more fundamental and therefore mainly philosophical issues now facing anyone who would do Christian theology systematically While each entry stands on its own and may well be read discretely they together make up a single many sided argument for a distinctive way of doing theology today by resolutely pursuing a comparably distinctive way of doing metaphysics and ethics
