Colonization Of Indochina:

Indochina Pierre Brocheux, Daniel Hémerly, 2011-06 An important well conceived and original piece of historical synthesis Peter Zinoman author of *The Colonial Bastille A History of Imprisonment in Vietnam* Indochina is the first and best general history of French colonial Indochina from its inception in 1858 to its crumbling in 1954 It is the only work to avoid nationalist colonialist and anticolonialist historiographies in order to fully explore the ambiguity of the French colonial period A major contribution to the national histories of France Vietnam Laos and Cambodia Christopher Goscha Universit du Qu bec Montr al The Colonisation of Indo-China Joseph Chailley-Bert, 1894 **France in Indochina** Nicola Cooper, 2001-01-01 Valorised as la perle de l Extr me Orient Indochina was France s rival to Britain s jewel in the crown Advanced worthy and accorded special status it was a showcase of success but also a site of disaster Given the current scholarly interest in reassessing colonial attitudes and in francophone culture this book fills an important gap by focusing upon the neglected French colonial discourses at the height of the French imperial encounter with Indochina The period of French colonial rule in Indochina spanned some ninety years and not only did it witness France s Fourth Republic s first experience and loss of colonial war it also exemplified the often contradictory representations and perceptions of imperial identity colonialism and the legacy of the 1789 Revolution Framed by political ideological and historical developments and debates each chapter develops an intriguing socio cultural account of France s own understanding of its role in Indochina and its relationship with the colony The author brings together striking images from colonial expositions metropolitan fiction travel journalism world exhibitions popular song gendered and familial representations as well as film to reveal the confusion over imperial identity that prevailed in France until the eve of the Second World War This authoritative work provides an important re evaluation of French Indochina and its legacy Its interdisciplinary approach will be of interest to a broad readership students of French history colonial and postcolonial studies cultural studies literature sociology and race Tourism and Colonization in Indochina (1898-1939) Aline Demay, 2015-01-12 Direct flights to former imperial capitals continued visits to the same tourist sites and the emergence of tours dedicated to the imperial past all pose the question of the heritage of tourism in the former colonies Lesser known as a field of research the study of tourism in colonial situations has begun to impose itself over the past decade as an important issue Interestingly in the colonial era tourism was one element of the policies used by the colonial power to highlight its colony The use of tourist activities for political ends was first confirmed in an October 2 1922 circular composed by the Minister of the Colonies Albert Sarraut This circular required all French overseas territories to organize and develop the tourism sector because along with its economic benefits the tourist of today can be the colonist of tomorrow This theme along with knowledge related more specifically to tourism such as the creation of sites and tours and the background of tourists also contributes to sanitary environmental and planning questions as well as issues concerning the construction of national sentiment How did tourism develop in a territory during the period of colonial expansion How are

tourism and colonization related What connections can be found between the two Using archives and tourist publications this book marks an unprecedented work of research into the enactment of tourism in Indochina It places the establishment of tourism in this former French colony along with the tourism policies of Metropolitan France and the attempts to reproduce the organizations established in the Dutch East Indies and in Japan The book which focuses on events in the period from the turn of the twentieth century to the eve of the Second World War analyses the transfer of European tourism practices to Indochina their establishment their integration with policies of valorisation in the 1920s their spatial consequences and the communication established by the state to promote Indochina as a tourist destination for both Indochinese and foreign tourists

French Indochina Charles River Charles River Editors, 2018-06-12 Includes pictures Includes online resources and a bibliography for further reading Without Empire France today would only be a liberated country Thanks to her Empire she is today a victorious country French Guianan lawyer and politician Gaston Monnerville The U S Naval Station Argentia located in Placentia Bay a sheltered harbor on Newfoundland Island was the unlikely setting for one of the most pivotal summit meetings of the 20th century The meeting took place on August 9 1941 World War II was in its second year the British had won the Battle of Britain but were still encircled by German U Boats and the British fleet was being decimated in the North Atlantic In North Africa a contest of armor was underway as Axis and Allied armies fought for control of Egypt while Britain and her Commonwealth allies stood alone against the mighty German Wehrmacht Roosevelt however pictured a very different post war world than his British counterpart Winston Churchill When he and Churchill met at what came to be known as the Atlantic Conference Churchill's pleas for U S manpower and aid were accepted but only under clear conditions If the United States was to come to the aid of Britain it would be for the purpose of defeating the Germans and the Japanese and not to support the insupportable institutions of empire Britain and by extension France and Portugal the only remaining major European shareholders in foreign empire would have to commit to decolonization as a basic prerequisite of substantial U S assistance Churchill a vocal and forceful proponent of empire and a man of the generation that had conquered the world did not receive this news well On the other side of the world British and allied European Asian colonies lay very much in the path of the Japanese imperial march into Southeast Asia However as the inevitability of war grew daily the nationalist movement in India was also beginning to gather pace Without India and Indian manpower war with Japan would be lost before it could begin The Indians in a sense could hold the British hostage and ultimately in exchange for Indian cooperation in the war the British would first have to commit to a post war independence process Meanwhile the British were not the only European power to take note of this development The French too were a major imperial power with a great deal to lose from such a monumental change but their view of the global chessboard was somewhat different France lay under German occupation and an armistice had been signed on behalf of the French nation by Marshall Philippe P tain commencing the era of Vichy France In London meanwhile the firebrand French General Charles de Gaulle urged a continuation of the resistance

believing the French mainland to be only a small part of the picture France was much more than just France De Gaulle established the Free French movement in Britain based on the loyalty and the ongoing Free French control of a majority of her overseas territories The Free French movement and the Free French army based themselves in Francophone Africa The saga of the Free French movement would impact the war in both North Africa and Europe but most specifically it would serve to radically redefine the French view of itself and her relationship with her overseas territories Most importantly it would set the tone for a style of decolonization very different from the British and perhaps not surprisingly things would not go smoothly especially with the geopolitics of the Cold War affecting matters French Indochina The History and Legacy of the French Empire's Colonialism in Southeast Asia analyzes the colonization of Southeast Asia and what happened as a result of the decolonization Along with pictures of important people places and events you will learn about the French in Southeast Asia like never before

French Colonization in Indochina Richard Yokeley, 2006 *Contesting Indochina* M. Kathryn Edwards, 2016-06-14 How does a nation come to terms with losing a war especially an overseas war whose purpose is fervently contested In the years after the war how does such a nation construct and reconstruct its identity and values For the French in Indochina the stunning defeat at Dien Bien Phu ushered in the violent process of decolonization and a fraught reckoning with a colonial past *Contesting Indochina* is the first in depth study of the competing and intertwined narratives of the Indochina War It analyzes the layers of French remembrance focusing on state sponsored commemoration veterans associations special interest groups intellectuals films and heated public disputes These narratives constitute the ideological battleground for contesting the legacies of colonialism decolonization the Cold War and France's changing global status

Colonial Culture in France since the Revolution Pascal Blanchard, Sandrine Lemaire, Nicolas Bancel, Dominic Thomas, 2013-12-02 This landmark collection by an international group of scholars and public intellectuals represents a major reassessment of French colonial culture and how it continues to inform thinking about history memory and identity This reexamination of French colonial culture provides the basis for a revised understanding of its cultural political and social legacy and its lasting impact on postcolonial immigration the treatment of ethnic minorities and national identity

The European Colonial Empires H. L. Wesseling, 2015-10-23 The nineteenth century was Europe's colonial century At the beginning of the period the only colonial empire that existed was the British Empire By the end of the century the situation was completely different and Europe's colonial possessions had come to constitute a large part of the world The French had acquired an immense colonial empire and the Dutch had extended their control over Indonesia Germany and Italy unified only in the latter half of the century had claimed their place under the sun Even the tiny Kingdom of Belgium had acquired a huge colonial territory in Africa the Belgian Congo This is the first book to describe the whole process of colonization from conquest to pacification and to analyze it in the light of administrative cultural and economic developments *The European Colonial Empires* discusses a uniquely long period instead of merely focussing on the shorter accepted age of classical

imperialism Wesseling argues that European colonial expansion can be understood only by putting it into this long term perspective and by comparing the differences between the colonies in Africa Asia Oceania and the Caribbean This book redresses the balance that privileges the British colonial and imperial experience It emphasizes the continental European experience while relating developments to the British enterprise *South-East Asia from Colonialism to Independence* Jan M. Pluvier,1974

French Indo-China Virginia Thompson,2024-11-01 First published in 1937 French Indo China presents a comprehensive account in English of the French colonization of Indo China The book does not attempt to give a chronological story nor has the same organization of material being used for all the countries studied Rather the aim has been to present cross sections of the problem as a method of studying mutual influences and reciprocal reactions It discusses themes like history of Annam the French administration of Indo China the economy of Indo China Indo Chinese literature Cambodia Laos and the primitive tribes and reaction to the French colonization of Indo China This book is an important reference work on French colonial history *French Women and the Empire* Marie-Paule Ha,2014 The first book length investigation of colonial gender politics in Third Republic France using Indochina as a case study charts women s experiences and activities to reveal a transformation in French views of empire from colonial life as an exclusively male preserve to one where women s presence was seen as essential *Pax International* ,1930

Phantasmatic Indochina Panivong Norindr,1996 This reflection on colonial culture argues for an examination of Indochina as a fictive and mythic construct a phantasmatic legacy of French colonialism in Southeast Asia Panivong Norindr uses postcolonial theory to demonstrate how French imperialism manifests itself not only through physical domination of geographic entities but also through the colonization of the imaginary In this careful reading of architecture film and literature Norindr lays bare the processes of fantasy desire and nostalgia constituent of French territorial aggression against Indochina Analyzing the first Exposition Coloniale Internationale held in Paris in 1931 Norindr shows how the exhibition s display of architecture gave a vision to the colonies that justified France s cultural prejudices while stimulating the desire for further expansionism He critiques the Surrealist counter exposition mounted to oppose the imperialist aims of the Exposition Coloniale and the Surrealist incorporation and appropriation of native artifacts in avant garde works According to Norindr all serious attempts at interrogating French colonial involvement in Southeast Asia are threatened by discourse images representations and myths that perpetuate the luminous aura of Indochina as a place of erotic fantasies and exotic adventures Exploring the resilience of French nostalgia for Indochina in books and movies the author examines work by Malraux Duras and Claudel and the films *Indochine* *The Lover* and *Dien Bien Phu* Certain to impact across a range of disciplines *Phantasmatic Indochina* will be of interest to those engaged in the study of the culture and history of Vietnam Cambodia Thailand and Laos as well as specialists in the fields of French modernism postcolonial studies cultural studies and comparative literature

Vietnamese Colonial Republican Peter Zinoman,2013-11-16 This volume is a comprehensive study of Vietnam s

greatest and most controversial 20th century writer who died tragically in 1939 at the age of 28 Vu Trong Phung is known for a remarkable collection of politically provocative novels and sensational works of non fiction reportage that were banned by the communist state from 1960 to 1986 Leading Vietnam scholar Zinoman resurrects the life and work of an important intellectual and author in order to reveal a neglected political project that is excluded from conventional accounts of modern Vietnamese political history He sees Vu Trong Phung as a leading proponent of a localized republican tradition that opposed colonialism communism and unfettered capitalism and that led both to the banning of his work and to the durability of his popular appeal in Vietnam today The War in Indochina 1945-54 Jacques Dalloz,1990-04-26 Widely acclaimed when it appeared in French in 1987 this first general history in English examines the colonial background the period of Japanese control the rise of Ho Chi Minh the struggle of his rural based guerrillas through the five former kingdoms and the French defeat at Dien Bien Phu The war which split France and politicized the French army led to the collapse of the Fourth Republic and the reemergence of de Gaulle Although Ho lost the peace he established a model of mid 20th century revolutionary war and set the scene for America s military involvement in Vietnam Certain to become the standard work on the subject *Imagology* Manfred Beller,Joseph Theodoor Leerssen,2007 How do national stereotypes emerge To which extent are they determined by historical or ideological circumstances or else by cultural literary or discursive conventions This first inclusive critical compendium on national characterizations and national cultural or ethnic stereotypes contains 120 articles by 73 contributors Its three parts offer 1 a number of in depth survey articles on ethnic and national images in European literatures and cultures over many centuries 2 an encyclopedic survey of the stereotypes and characterizations traditionally ascribed to various ethnicities and nationalities and 3 a conspectus of relevant concepts in various cultural fields and scholarly disciplines The volume as a whole as well as each of the articles has extensive bibliographies for further critical reading Imagology is intended both for students and for senior scholars facilitating not only a first acquaintance with the historical development typology and poetics of national stereotypes but also a deepening of our understanding and analytical perspective by interdisciplinary and comparative contextualization and extensive cross referencing **French Policy and Developments in Indochina** Thomas Edson Ennis,1936 **The Indian Historical Quarterly** ,1925 **The Vietnamese Revolution of 1945** Stein Tonnesson,1991-11-04 This definitive and thorough exploration of the causes and course of the Vietnamese Revolution of August 1945 provides new insights from hitherto unexploited archival sources The strength of the book lies in encompassing the history of the Vietnamese Revolution in discussions of broader theoretical issues and in placing it within the context of international developments at the time Two causal chains are established one starting with the founding of the Indochinese Communist Party in 1930 the other with President Roosevelt s intense preoccupation from 1943 to 1945 with the future of French Indochina
