Policing Developing Democracies Mercedes S. Hinton,Tim Newburn,2008-09-25 There are enormous challenges in establishing policing systems in young democracies Such societies typically have a host of unresolved pressing social economic and political questions that impinge on policing and the prospects for reform There are a series of hugely important questions arising in this context to do with the emergence of the new security agenda the problems of transnational crime and international terrorism the rule of law and the role of the police security services and the military This is a field that is not only of growing academic interest but is now the focus of a very significant police reform industry Development agencies and entrepreneurs are involved around the globe in attempts to establish democratic police reforms in countries with little or no history of such activity Consequently there is a growing literature in this field but as yet no single volume that brings together the central developments This book gathers together scholars from political science international relations and criminology to focus on the issues raised by policing within developing democracies examining countries in Eastern Europe Asia South America and Africa

Beyond Cop Cities Joy James,2024-08-20 Since 1997 the US Department of Defense has transferred more than 7 2bn in military equipment to law enforcement agencies Furthermore the DOD is legally required to make various equipment items available to local police and school police departments from flashlights and sandbags to grenade launchers and armored vehicles This militarization has unsurprisingly been shown to impact Black communities unjustly and is associated with increased killings by police No wonder there have been calls to defund the police echoing across the streets of America In *Beyond Cop Cities* Joy James and fellow contributors take these calls one step further highlighting the Stop Cop City movement one of the most vibrant in the US today Linking the anti policing and racial justice movement with radical ecological forest defender activism the Stop Cop City campaign is a grassroots movement that aims to push back on police militarization by blocking the construction of Atlanta s Police Public Safety Training Center Sharp and concise including the voices of key figures in the movement along with the mother of murdered activist Tortuguita shot and killed by Georgia police while protesting this collection of vital and politically sophisticated writings captures a moment in time demanding a safer less brutal future

The Phoenix Program Douglas Valentine,2014-06-10 This shocking expose of the CIA operation aimed at destroying the Vietcong infrastructure thoroughly conveys the hideousness of the Vietnam War Publishers Weekly In the darkest days of the Vietnam War America s Central Intelligence Agency secretly initiated a sweeping program of kidnap torture and assassination devised to destabilize the infrastructure of the National Liberation Front NLF of South Vietnam commonly known as the Viet Cong The victims of the Phoenix Program were Vietnamese civilians male and female suspected of harboring information about the enemy though

many on the blacklist were targeted by corrupt South Vietnamese security personnel looking to extort money or remove a rival Between 1965 and 1972 more than eighty thousand noncombatants were neutralized as men and women alike were subjected to extended imprisonment without trial horrific torture brutal rape and in many cases execution all under the watchful eyes of US government agencies Based on extensive research and in depth interviews with former participants and observers Douglas Valentine s startling expos blows the lid off of what was possibly the bloodiest and most inhumane covert operation in the CIA s history The ebook edition includes The Phoenix Has Landed a new introduction that addresses the Phoenix style network that constitutes America s internal security apparatus today Residents on American soil are routinely targeted under the guise of protecting us from terrorism which is why more than ever people need to understand what Phoenix is all about
