

Big Class

David Bills

Big Class:

Social Stratification David B. Grusky, 2018-05-04 The book covers the research on economic inequality including the social construction of racial categories the uneven and stalled gender revolution and the role of new educational forms and institutions in generating both equality and inequality

Hybrid Learning in English Language Teaching Okon Effiong, Bill Batziakas, Karima Ben Abbes, 2023-12-19 This collection of chapters offers readers diverse perspectives on English Language Teaching along with various closely related theoretical constructs and pedagogical tools such as motivation learner autonomy and technology Amalgamating these constructs provides a much needed theoretical grounding by using empirical studies The chapters vary in their focus and reflect on classroom practices and yield findings pertaining to a wide range of topics As such it will be of interest to a wide range of English Language Teaching professionals from university instructors to schoolteachers This edited volume broadens the conceptual boundaries of language learning theories offers insights and directions into the future of hybrid teaching and learning and adds a new line of enquiry emanating from empirical findings This book will also be useful in professional development seminars and workshops that support multilingual learners teacher trainers and trainer teachers

The Oxford Guide to the Atlantic Languages of West Africa Friederike Lüpke, 2024 This volume is the first book length overview of the Atlantic languages a small family of languages spoken mainly on the Atlantic coast of West Africa It is an essential tool for linguists interested in the languages of West Africa language history and classification and typology and language contact more broadly

Live Stock Journal , 1922

The Shape of Social Inequality David Bills, 2005-08-24 This volume brings together former students colleagues and others influenced by the sociological scholarship of Archibald O Haller to celebrate Haller s many contributions to theory and research on social stratification and mobility All of the chapters respond to Haller s programmatic agenda for stratification research A full program aimed at understanding stratification requires first that we know what stratification structures consist of and how they may vary second that we identify the individual and collective consequences of the different states and rates of change of such structures and third seeing that some degree of stratification seems to be present everywhere that we identify the factors that make stratification structures change The contributors to this Festschrift address such topics as the changing nature of stratification regimes the enduring significance of class analysis the stratifying dimensions of race ethnicity and gender and the interplay between educational systems and labor market outcomes Many of the chapters adopt an explicitly cross societal comparative perspective on processes and consequences of social stratification The volume offers both conceptually and empirically important new analyses of the shape of social stratification
