

Natural Minor Scales

The natural minor scale has the same key signature and exactly the same notes as its relative major scale. Start on the 6th degree of any major scale. Consider this note as the tonic (1st degree) of the natural minor scale. Remember the notes (1 through 7 upwards) from this new tonic for the degrees of the relative natural minor scale.

C Major Scale Degrees

A Natural Minor Scale Degrees

Another way to construct the relative natural minor scale is to take the notes a "diatonic 3rd" below those of the major scale. (Take the note one line below a note on a line, or one space below a note on a space; do not change the key signature.)

☞ **Diatonic:** Confined to the notes of the key signature, with no alterations.

When you play a major scale from its 6th degree, this is called the natural minor or Aeolian mode.

No exercises in natural minor scales are given here, as the fingerings are exactly the same as the relative major scales shown before. (For reading practice, see modal transposition in the next section.)

Modes: A Brief Discussion

There are names to indicate the playing of a scale from each of the seven notes. These are called **modes**. They are as follows:

Ionian	From the tonic (or 1)
Dorian	From the 2nd
Phrygian	From the 3rd
Lydian	From the 4th
Mixolydian	From the 5th
Aeolian	From the 6th
Locrian	From the 7th

There are two ways in which these modal terms are expressed:

- **Dorian mode, key of C,** means the C scale starting on the second note (D).
- **C Dorian,** means to start on the note C and play the scale of which C is the 2nd degree, i.e., the B scale, starting from C.
