Direct Perception:

Direct Perception Claire F. Michaels, Claudia Carello, 1981 *The Ecological Approach to Visual Perception* James Jerome Gibson, 1986 This is a book about how we see the environment around us its surfaces their layout and their colors and textures where we are in the environment whether or not we are moving and if we are where we are going what things are good for how to do things to thread a needle or drive an automobile or why things look as they do The basic assumption is that vision depends on the eye which is connected to the brain The author suggests that natural vision depends on the eyes in the head on a body supported by the ground the brain being only the central organ of a complete visual system When no constraints are put on the visual system people look around walk up to something interesting and move around it so as to see it from all sides and go from one vista to another That is natural vision and what this book is about **Gaekwad's Oriental Series** ,1929 *Mipham's Sword of Wisdom* Khenchen Palden Sherab, 2018-06-26 Presents the Nyingma lineage understanding of valid cognition in Buddhism Its core subject is the Buddhist view of the two truths the relative truth of conventional appearances and the absolute truth of emptiness and buddha nature and how the two truths are inseparable The main questions posed are How can we know the two truths and how can we be certain that our knowledge is accurate The great scholar and advanced spiritual master Jamgon Mipham s *Sword of Wisdom* is a classic work that explicates valid cognition I am happy to see it now available in English with commentary and scholarly appendices that will be very helpful for serious students in understanding this profound and important text His Holiness the Sakya Trichen Mipham s *Sword of Wisdom* explores the Nyingma lineage understanding of valid cognition in Vajrayana Buddhism This translation a clear and concise primer on higher realization through valid cognition in Buddhist philosophy presents these ideas in English for the very first time and includes the sutra presentation of the two truths and the tantra teachings of the two truths as the purity and equality of all phenomena When you ve finished Mipham s *Sword of Wisdom* you ll have rich insights into Nyingma teachings on valid cognition a profound new understanding of the two truths and their inseparability a solid foundation in valid cognition through direct perception and reasoning according to the traditional Indian treatises of Dharmakirti and Dignaga and much more **Mind** ,1908 A quarterly review of philosophy *Science and Philosophy in the Indian Buddhist Classics, Vol. 3* Thupten Jinpa, 2022-12-13 Deepen your understanding of meaning and truth with the third volume of the Dalai Lama s esteemed series *Science and Philosophy in the Indian Buddhist Classics* *Science and Philosophy in the Indian Buddhist Classics* compiles classical Buddhist explorations of the nature of the material world the human mind reason and liberation and puts them into context for the modern reader This ambitious four volume series a major resource for the history of ideas and especially the history of science and philosophy has been conceived by and compiled under the visionary supervision of His Holiness the Dalai Lama himself It is his view that the exploratory thinking of the great masters of classical India still has much that is of interest to us today whether we are Buddhist or not These volumes make those insights

accessible In this third volume the focus turns to exploring the philosophical schools of India The practice of presenting the views of various schools of philosophy dates back to the first millennium in India when proponents of competing traditions would arrange the diverse sets of philosophical positions in a hierarchy culminating in their own school s superior tenets Centuries later relying on the Indian Buddhist treatises Tibet developed its own tradition of works on tenets grub mtha often centered on the four schools of Buddhist philosophy using them to demonstrate the philosophical evolution within their own tradition and within individual practitioners as they progressed through increasingly more subtle expressions of the true reality The present work follows in this venerable tradition but with a modern twist Like its predecessors it presents the views of seven non Buddhist schools those of the Samkhya Vaisesika Nyaya Mimamsa Vedanta Jaina and Lokayata followed by the Buddhist Vaibhasika Sautrantika Cittamatra and Madhyamaka schools arranging them like steps on a ladder to the profound But rather than following in the sharply polemical approach of its ancient predecessors it strives to survey each tradition authentically relying on and citing the texts sacred to each allowing the different traditions to speak for themselves What it asks are the basic components of the world we experience What is the nature of their ultimate reality And how can we come to experience that for ourselves See how the rich spiritual traditions of India approached these key questions where they agreed and how they evolved through dialogue and debate This presentation of philosophical schools is introduced by His Holiness and is accompanied by an extensive introduction and survey by Professor Donald Lopez Jr of the University of Michigan who is uniquely qualified to communicate the scope and significance of this literary and spiritual heritage to modern readers
