George Killenberg

A Reporters Intuition:

A Reporter's Intuition Scott Connors, 2000-07-20 We need to talk said a hushed voice on the other end of Patrick Brophy's phone. With that call Patrick Brophy plunges unknowingly headfirst into a conspiracy to kill his friend Senator Glenn Hayes in Washington where friends and enemies are one in the same. Patrick Brophy doesn't know who to trust and time is running out. With the help of a computer hacker Patrick Brophy stalks his prey electronically chasing them from Ireland to Washington and finally to Chicago where the trail turns deadly. With only his reporter's intuition to rely on Patrick Brophy must solve this case before he becomes the next victim. AUTHOR BIO Scott Connors is a musician, writer, ex altar boy from Pittsfield, Massachusetts. This is his first novel. The Reporter's Handbook Carrol Baker Dotson, 1926 Public Affairs Reporting Now George Killenberg, 2012-07-26 Every day life, no matter whether the issues or events arise next door or a continent away, raises questions and concerns that the public counts on journalists to answer and more importantly confront. More than ever before we all rely on the news media for warnings, explanations, and insights. The profession and society cannot afford lazy, inept, uncommitted journalists. Today's reporters must learn how to cover public affairs intelligently and thoroughly. First, you must learn about the institutions and people who influence the news, understanding how a legislative conference, committee functions, or how a trial is conducted remain important prerequisites. But it is not enough merely to know how to report. Journalists must also understand how they see, define, and influence the news. Don't be fooled by the daily dose of fluffy stories about fads, fashions, or fetishes. People love to revel in celebrity gossip or fantasize about extreme makeovers. But Donald Trump's love life or the South Beach Diet don't satisfy when people worry about a home invasion in their neighborhood or a rezoning proposal to bring a Wal-Mart super center to town or a Department of Education report that their child's school scored bottom-most in reading achievement. Public Affairs Reporting Now is intended to teach you the best practices and give you the best advice for covering what's generically known as public affairs reporting. It's a term that's neither inspiring nor precise, but it's long been a convenient way of describing the kind of news coverage that keeps people informed as citizens and keeps our institutions, public and private, focused on the public good. Custodians of Conscience James S. Ettema, Theodore L. Glasser, 1998 Through in-depth interviews with award-winning investigative reporters and detailed analyses of the stories that brought them professional acclaim, the authors explain how journalists resolve, practically if not conceptually, the paradox of a press that is committed to exposing wrongdoing and is at the same time adamant about its disinterest in questions of right and wrong. The Anchor and the Journalist Robert Livingston, 2021-05-27 On May 3, 1945, a swarm of Japanese suicide planes attacked an American ship, the USS Aaron Ward, during the fierce struggle for Okinawa. The ship was all but destroyed and forty-two sailors died in the 52-minute battle. One of those killed was Laverne Schroeder, only two months before his eighteenth birthday. After the war, an anchor from the ship was placed in the military section of the Bluff City Cemetery in Illinois. There, the anchor remains a silent reminder of kamikaze pilots who wanted to die.

and young sailors who wanted to live This is the story of the Aaron Ward s gallant fight a brave young man and a reporter s quest to honor the ship s legacy The Complete Reporter Julian Harriss,Kelly Leiter,Stanley P. Johnson,1985

Advanced Reporting Miles Maguire,2014-07-25 News gathering is a large complicated and often messy task that has traditionally been viewed by journalists as irretrievably idiosyncratic best learned through trial and error Advanced Reporting takes the opposite approach focusing on reporting as a process of triangulation based on three essential activities analyzing documents making observations and conducting interviews In this readable book veteran journalism professor Miles Maguire shows how the best reporters use these three tools in a way that allows them to cross check and authenticate facts to reduce or eliminate unsupportable allegations and to take readers and viewers to a deeper level of insight and understanding This book will help to prepare students for a profession marked by increasing complexity and competition To succeed in this environment journalists must learn to make the most of digital media to intensify the impact of their work At the same time reporters must contend with a host of sophisticated public relations techniques while engaging with news audiences that no longer just consume journalism but also collaborate in its creation Discussion questions and exercises help students put theory into practice *St. Louis Journal of Homeopathy and Clinical Reporter* ,1889 Every Reporter's Own Shorthand Dictionary Elias Longley,1882 **Philip Derby, Reporter** Willis John Abbot,1922 *Iron Age and Hardware, Iron and Industrial Reporter* ,1895 **The Architect and Contract Reporter** ,1918 The Medical and Surgical Reporter ,1895 **The Insulin Express** Oren Liebermann,2017-05-02 A travel memoir through thirty countries a thousand insulin injections and one man s journey from despair to confidence With tips and information from the American Diabetes Association In the middle of a yearlong backpacking trip around the world with his wife Oren Liebermann is teaching English to young Buddhist monks in Pokhara Nepal when his body begins to fail him He is constantly thirsty and exhausted and by the time he steps on a scale he has lost forty five pounds At a local clinic a doctor gives him a diagnosis that will change his life forever I m sorry to tell you my friend that you are a diabetic Devastated Liebermann is trapped in a freezing hospital room trying to recover enough to fly home His friends and family urge him to call off the rest of his trip He had quit his job as a TV news reporter for this dream come true journey but the nightmare diagnosis has thrown his world into disarray However Liebermann and his wife Cassie make a decision They have an adventure to finish and he has the rest of his life to live Bold raw and poignantly candid The Insulin Express tells the story of what happens when the best made travel plans are subject to the ever present chaos of life and how a major setback can turn into the opportunity of a lifetime Despite struggling with a chronic disease that almost kills him in the Himalayas Liebermann hikes along the Great Wall of China conquers the Inca Trail to Machu Picchu and sips cobra whiskey in Laos What begins as a travel chronicle across thirty countries transforms into a single journey of resilience and self discovery going from hopelessly lost and then wonderfully found The Stenographer ,1893 *The Washington Law Reporter* ,1890 *The Daily Washington Law Reporter* ,1890

Rationalist Bias in Communication Theory Shedletsky, Leonard, 2021-06-04 While communication theory has not recognized the implications of the social intuitionist model psychologists have gathered an impressive body of evidence to support the theory In social cognition research there was the idea that human inferential processes are conscious rational logical and accurate and this belief continues somewhat in the behavioral sciences although there is evidence that it is incorrect A fresh examination is needed on just how these inferences by the receiver and the implications by the sender carried out at high speed impact our understanding of the communication process Simply put until now the default case in communication theory is the belief that we consciously reason and then we act However that may not be entirely true Rationalist Bias in Communication Theory applies social intuition theory to human communication This book explores how research has missed accounting for a critical fact about human communication in the theories of communication namely that we as humans can respond to one another and to all kinds of stimuli faster than we can deliberate By applying intuitive cognition to communication a new light can be shed on the communication process which is what the chapters prove and discuss This book is valuable for social scientists practitioners researchers academicians and students interested in new theories in communication theory
