Provided by publisher Caribbean Transformations Sidney Wilfred Mintz, 1984 Black Identities Mary C. Waters, 2009-07-01 The story of West Indian immigrants to the United States is considered a great success Many of these adoptive citizens have prospered including General Colin Powell But Mary Waters tells a very different story about immigrants from the West Indies especially their children She finds that when the immigrants first arrive their knowledge of English their skills and contacts their self respect and their optimistic assessment of American race relations facilitate their integration into the American economic structure Over time however the realities of American race relations begin to swamp their positive cultural values Persistent blatant racial discrimination soon undermines the openness to whites the immigrants have when they first arrive Discrimination in housing channels them into neighborhoods with inadequate city services and high crime rates Inferior public schools undermine their hopes for their children's future Low wages and poor working conditions are no longer attractive for their children who use American and not Caribbean standards to measure success Ultimately the values that gained these first generation immigrants initial success a willingness to work hard a lack of attention to racism a desire for education an incentive to save are undermined by the realities of life in the United States In

many families the hard won relative success of the parents is followed by the downward slide of their children Contrary to long held beliefs Waters finds those who resist Americanization are most likely to succeed economically especially in the second generation

Encountering Kali Rachel Fell McDermott, Jeffrey John Kripal, 2005-01-01 Encountering Kali explores one of the most remarkable divinities the world has seen The Hindu goddess Kali is simultaneously understood as a blood thirsty warrior a deity of ritual possession a tantric sexual partner and an all loving compassionate mother Popular and scholarly interest in her has been on the rise in the west in recent years Responding to this phenomenon McDermott and Kripal's volume focuses on the complexities involved in interpreting Kali in both her indigenous south Asian settings and her more recent Western incarnation Through the shifting lenses of scriptural history temple architecture political reflection and the goddess's recent guises on the Internet the contributors pose questions that illuminate our understanding of Kali while addressing the problems and promises inherent in every act of cross cultural interpretation

The Oxford Handbook of Humanism Anthony B. Pinn, 2021-07-27 As a system of thought that values human needs and experiences over supernatural concerns humanism has gained greater attention amid the rapidly shifting demographics of religious communities This outlook has taken on global dimensions with activists artists and thinkers forming a humanistic response not only to religion but to the pressing social and political issues of the 21st century The Oxford Handbook of Humanism aims to explore the subject by analyzing its history its philosophical development and its influence on culture It will also discuss humanism as a global phenomenon an approach that has often been neglected in more Western focused works

Slave Women in the New World Marietta Morrissey, 1989 **Centro Journal**, 1996 LEGIT ACTS ILLEG ENC Mindie Lazarus-Black, 1994-06-17 Legitimate Acts and Illegal Encounters examines three hundred years of social life on the Caribbean islands of Antigua and Barbuda to demonstrate the importance of law and the state in the creation of West Indian societies Moving from the periods of slavery and emancipation under British colonial rule to recent independence Mindie Lazarus Black argues that the continuing struggle between lawmakers and the nonruling class has shaped the distinctive character of creole kinship class and gender Lazarus Black analyzes historical and social transformation on the islands using a theoretical framework drawn from Foucault's distinction between systems of legalities the signs symbols and rituals of law and systems of illegalities common breaches of codes or explicit tolerance of illicit behaviors She documents the differences between local behavior and Antiguan law under slavery the impact of family labor and poor laws on kinship relations in the post emancipation era and in contemporary times how men and women use the law in ways lawmakers never imagined as when women take men to court

as a form of ritual shaming Her research reveals that the same laws used by ruling classes as tools for punitive definitions have served lower classes as instruments of both defense and resistance Legal strictures she shows have been used to keep the master class within its own written limits to check elites assumptions about the social world and to push for a justice born of the experiences of the powerless As this book demonstrates the investigation of law and judicial processes is as central to the history and the anthropology of the powerless as it is to that of the elites The author s interdisciplinary analysis of the dynamics of and between domination and resistance in creole society will inform students of anthropology history law and society Caribbean studies and women s studies BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
