Caring And Social Justice:

Caring and Social Justice Marian Barnes,2005-12-05 Care giving has become a high profile issue in policy and practice yet much of the literature conceives it as burdensome or even oppressive Drawing extensively on real life examples of care giving relationships *Caring and Social Justice* reveals an uplifting alternative approach to caring that highlights its contribution to social cohesion and social justice It offers a clear overview of the literature including debates about an ethic of care and offers a thought provoking survey ideal for undergraduate and postgraduate study *Critical Ethics of Care in Social Work* Bob Pease,Anthea Vreugdenhil,Sonya Stanford,2017-10-06 This book argues that the concept of care is a political and a moral concept As such it enables us to examine moral and political life through a radically different lens The editors and contributors to the book argue that care has the potential to interrogate relationships of power and to be a tool for radical political analysis for an emerging critical social work that is concerned with human rights and social justice The book brings a critical ethics of care into the realm of theory and practice in social work Informed by critical theory feminism intersectionality and post colonialism the book interrogates the concept of care in a wide range of social work settings It examines care in the context of social neglect interdisciplinary perspectives the responsabilisation agenda in social work and the ongoing debate about care and justice It situates care in the settings of mental health homelessness elder care child protection asylum seekers and humanitarian aid It further demonstrates what can be learnt about care from the post colonial margins Aboriginal societies LGBTI communities and disability politics It demonstrates ways of transforming the politics and practices of care through the work of feminist mothers caring practices by men meditations on love rethinking self care extending care to the natural environment and the principles informing cross species care The book will be invaluable to social workers human service practitioners and managers who are involved in the practice of delivering care and it will assist them to challenge the punitive and hurtful strategies of neoliberal rationalisation The critical theoretical focus of the book has significance beyond social work including nursing psychology medicine allied health and criminal justice *Care in Everyday Life* Marian Barnes,2012-06-27 Care has been struggled for resisted and celebrated The failure to care in care services has been seen as a human rights problem and evidence of malaise in contemporary society But care has also been implicated in the oppression of disabled people and demoted in favour of choice in health and social care services In this bold wide ranging book Marian Barnes argues for care as an essential value in private lives and public policies She considers the importance of care to well being and social justice and applies insights from feminist care ethics to care work and care within personal relationships She also looks at stranger relationships how we relate to the places in which we live and the way in which public deliberation about social policy takes place This book will be vital reading for all those wanting to apply relational understandings of humanity to social policy and practice *Social Justice and Children in Care* Morag Owen,2017-07-05 Can justice be achieved in voluntary cases or is it purely a matter for courts to determine Using a multi

disciplinary framework which has at its centre a philosophical anthropological view of social work as a moral practice the author explores the notion of justice in public child care The problem of parents and children s rights is addressed first of all in the legal context of care proceedings and then in the social work setting of voluntary care Forty six difficult cases are examined to see how decisions are made and implemented In the final analysis the dimensions of social and legal justice are charted in a way which may contribute to general understanding of these issues and some suggestions are offered about how social work may move forward in response to legitimate criticism

The Heart of Justice Daniel Engster,2007-04-26 The Heart of Justice proposes a new framework of political justice based upon the practice of caring Integrating the insights of earlier care theorists with the concerns of traditional justice theorists Engster forges a new synthesis between care and justice and further argues that the institutional and policy commitments of care theory must be recognized as central to any adequate theory of justice Engster begins by offering a practice based account of caring and a theory of obligation that explains why individuals should care for others He then systematically demonstrates the implications of this account of caring for domestic politics economics international relations and culture In each of these areas he reviews the contributions of earlier care theorists and then extends their arguments to provide a more complete description of the institutions and policies of a caring society Care ethics is further put in dialogue with diverse cultural and religious traditions and used to address the challenges of multicultural justice cultural relativism and international human rights More fully than other works on care theory this book provides an over arching account of the institutions and policies of a caring society The Heart of Justice provides the first full account of a theory of justice based upon care ethics and should be of interest to anyone interested in thinking about the nature of our moral obligations and the institutions of a just society

Medicine and Social Justice Rosamond Rhodes Ph.D,Margaret P. Battin Ph.D,Anita Silvers Ph.D,2002-08-29 Because medicine can preserve and restore health and function it has been widely acknowledged as a basic good that a just society should provide its members Yet there is wide disagreement over the scope of what is to be provided to whom how when and why In this uniquely comprehensive book some of the best known philosophers doctors lawyers political scientists and economists writing on the subject discuss the concerns and deepen our understanding of the theoretical and practical issues that run through the contemporary debate The first section lays a broad theoretical basis for understanding the concept of justice particularly as it relates to the distribution of health care The second section critically examines how medical care is distributed in different countries around the world and the particular advantages and injustices associated with those systems The third section draws attention to the special needs of different social groups and the specific issues of justice that are raised by the impact of various policies on health care distribution The concluding section delves into the dilemmas that confront those designing health care systems the politics the priorities and the place of desires as opposed to needs in a socially just scheme

Caring Democracy Joan C. Tronto,2013-04-12 Americans now face a caring deficit there are simply too many demands

on people's time for us to care adequately for our children, elderly people, and ourselves. At the same time, political involvement in the United States is at an all-time low, and although political life should help us to care better, people see caring as unsupported by public life and deem the concerns of politics as remote from their lives. Caring Democracy argues that we need to rethink American democracy as well as our fundamental values and commitments from a caring perspective. The idea that production and economic life are the most important political and human concerns ignores the reality that caring for ourselves and others should be the highest value that shapes how we view the economy, politics, and institutions such as schools and the family. Care is at the center of our human lives, but Tronto argues it is currently too far removed from the concerns of politics. Caring Democracy traces the reasons for this disconnection and argues for the need to make care not economics the central concern of democratic political life. Joan C. Tronto is a Professor in the Political Science Department at the University of Minnesota. She is the author of *Moral Boundaries: A Political Argument for an Ethic of Care* (Routledge).

Justice and Caring Michael S. Katz, Nel Noddings, Kenneth A. Strike, 1999. This thought-provoking volume confronts the expected tension between care and justice as moral orientations. These original essays by renowned educators reveal how these two moral orientations can work together to produce wiser and more practical policies and practices. The authors explore problems at every level of education and tackle tough questions in theory, practice, and policy making. Using real-life examples, they illustrate the great value of theoretical collaboration instead of competing with each other; justice and care should complement each other in both moral theory and practice. Child Care Justice Maurice Sykes, Kyra Ostendorf, 2022 Join the authors of this book in starting a movement of hope and possibility for an antiracist child care and early childhood education system This volume disrupts mental models regarding where the work of early care and education began with enslaved African women and how the stigma of that beginning relegates present day child care workers to a low status low wage field of practice Expert authors contribute their wisdom experience research and practical knowledge on issues related to equity and social justice They examine the oppressive historical political economic educational and cultural systems that continue to oppress early care educators and by extension racialized children and children in poverty The interrogation and litigation of past and current issues and grievances of injustice and inequities in the field are addressed while threading the needle of social justice and critical consciousness throughout the chapters Child Care Justice calls on educators activists and their allies to rethink reimagine and reconstruct a more equitable and just system for all who receive and provide care to our nation s youngest of children When historically marginalized child care workers are held in high esteem then and only then will America live up to its promise of liberty and justice for all Book Features Centers the historic and current oppression of Black people in the United States as foundational to the disregard for childcare workers today Uses Paulo Freire s critical consciousness framework to guide readers to see analyze and act Calls for a multiracial coalition of activists for racial justice gender justice and economic justice The roadmap has been drawn but it requires inspired and knowledgeable advocates to implement Read be inspired build community and take up the mantle for change From the Foreword by Barbara T Bowman Erikson Institute Contributors Rebecca Berlin Sarah R Bussey Michael Gramling Ed Greene Iheoma U Iruka Alexis Jemal Denisha Jones Hakim M Rashid Joey Saunders and James C Young

Care Ethics and Political Theory Daniel Engster, Maurice Hamington, 2015 Care Ethics and Political Theory brings together new chapters on the nature of care ethics and its implications for politics from some of the most important philosophers working in the field today Chapters take up long standing questions about the relationship between care and justice and develop guidelines for the development of a care based justice theory Care ethics is further applied to issues such as security privacy law and health care where little work has been previously done By bringing care ethics into conversation with non Western and subaltern cultures the contributing

authors further show how care ethics can guide and learn from other traditions A final set of chapters uses care ethics to challenge dominant moral and political paradigms and offer an alternative foundation for future moral and political theory The book as a whole makes the case for care ethics as an equal or superior approach to morality and politics compared with liberalism luck egalitarianism libertarianism the capabilities approach communitarianism and other political theories The volume includes many of the leading care scholars in the world today engaging in both theoretical and applied discussions of this burgeoning field of study Ultimately Care Ethics and Political Theory endeavors to find realistic methods and ways of thinking to create a more caring world

Care and Capitalism Kathleen Lynch,2021-12-09 The logics and ethics of neoliberal capitalism dominate public discourses and politics in the early twenty first century They morally endorse and institutionalize forms of competitive self interest that jettison social justice values and are deeply antithetical to love care and solidarity But capitalism is neither invincible nor inevitable While people are self interested they are not purely self interested they are bound affectively and morally to others even to unknown others The cares loves and solidarity relationships within which people are engaged give them direction and purpose in their daily lives They constitute cultural residuals of hope that stand ready to move humanity beyond a narrow capitalism centric set of values In this instructive and inspiring book Kathleen Lynch sets out to reclaim the language of love care and solidarity both intellectually and politically and to place it at the heart of contemporary discourse Her goal is to help unseat capital at the gravitational centre of meaning making and value thereby helping to create logics and ethical priorities for politics that are led by care love and solidarity

Sustaining Spirit Naomi Ortiz,2018-06 Naomi Ortiz takes decades of activist experiences in disability and Latinx communities distills the important lessons and channels the wisdom into Sustaining Spirit Self Care for Social Justice She digs deep into the cause of activist burnout How can advocacy be sustained without resources for self care Why do activist movements require intense commitment without consideration for people s lives Sustaining Spirit invites and supports us to explore the relationships between mind body spirit heart and place in order to integrate self care to survive and thrive

Socializing Care Maurice Hamington,Dorothy C. Miller,2006-01-10 Criticism is often levied that care ethics is too narrow in scope and fails to extend to issues of social justice Socializing Care attempts to dispel that criticism Contributors to the volume demonstrate how the ethics of care factors into a variety of social policies and institutions and can indeed be useful in thinking about a number of different social problems Divided into two sections the first looks at care as a model for an evaluative framework that rethinks social institutions liberal society and citizenship at a basic conceptual level The second explores care values in the context of specific social practices like live kidney donations or settings like long term care as a framework that should guide thinking Ultimately this collection demonstrates how society would benefit from a more serious engagement with care ethics
