sharing and comforting behaviors change with age Why are some children more caring than others Are differences among children s prosocial behaviors a result of hereditary factors of how children are raised or both Can prosocial tendencies be enhanced by parents and educators deliberate attempts to instill altruistic motives and to teach caring behaviors Nancy Eisenberg broadens our concept of the moral potential of children as she shifts the focus from censoring antisocial behaviors to the active promotion of kindness and caring in children **"Code of Massachusetts regulations, 1997"** ,1997 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 *Bureau publication (United States.
