Conscience Of A Liberal:

The Conscience of a Liberal Paul Krugman,2009-01-12 The most consistent and courageous and unapologetic liberal partisan in American journalism Michael Tomasky New York Review of Books In this clear provocative Boston Globe New York Times bestseller Paul Krugman today s most widely read economist examines the past eighty years of American history from the reforms that tamed the harsh inequality of the Gilded Age and the 1920s to the unraveling of that achievement and the reemergence of immense economic and political inequality since the 1970s Seeking to understand both what happened to middle class America and what it will take to achieve a new New Deal Krugman has created his finest book to date a stimulating manifesto offering a compelling historical defense of liberalism and a clarion call for Americans to retake control of their economic destiny Publishers Weekly As Democrats seek a rationale not merely for returning to power but for fundamentally changing or changing back the relationship between America s government and its citizens Mr Krugman s arguments will prove vital in the months and years ahead Peter Beinart New York Times [The Conscience of a Liberal](#) Paul R. Krugman,2009 Today s most widely read economist challenges America to reclaim the values that made it great Here he studies the past eighty years of American history from the reforms that tamed the harsh inequality of the Gilded Age to the unraveling of that achievement and the reemergence of immense economic and political inequality since the 1970s Seeking to understand both what happened to middle class America and what it will take to achieve a new New Deal Krugman has woven together a nuanced account of three generations of history with sharp political social and economic analysis This book written with Krugman s trademark ability to explain complex issues simply may transform the debate about American social policy From publisher description [The Conscience of a Liberal](#) Paul Krugman,2015-09-24 In *The Conscience of a Liberal* Paul Krugman one of the US s most respected economists and outspoken commentators lays out his vision of a New Deal for a fairer society After the Second World War it seemed that in the West society was gradually becoming more equal Welfare States had been established in many countries there was a general reduction in income inequality and in America Franklin D Roosevelt s New Deal seemed to ensure strong democratic values and broadly shared prosperity So what went wrong Why in the past thirty years has the gap between the poor and the super rich become such a gulf Why are we so disillusioned with the political system And what can be done about this huge economic inequality and bitter polarization Krugman argues that the time is ripe for another era of great reform Here he outlines a programme for change explaining what can be done to narrow the wealth gap And he shows how a new political coalition can both support and be supported by reform making our society not just more equal but more democratic *The Conscience of a Liberal* promises to reshape public debate and become a touchstone work [The Conscience of a Liberal](#) Paul Wellstone,2001-07-17 Never separate the lives you live from the words you speak Paul Wellstone told his students at Carleton College where he was professor of political science Wellstone has lived up to his words as the most liberal man in the United States Senate where for the past decade he has been the voice

for improved health care education reform and support for children In this folksy and populist memoir Wellstone explains why the politics of conviction are essential to democracy Through humor and heartfelt stories Paul Wellstone takes readers on an unforgettable journey in a school bus which he used to campaign for door to door from the fields and labor halls of Minnesota to the U S Senate where he is frequently Republican Majority Leader Trent Lott s most vocal nemesis Along the way he argues passionately for progressive activism proves why all politics is personal and explains why those with the deepest commitment to their beliefs win

Dobelstein,2018-02-20 This book suggests how welfare can be re formed by taking the American ideological context as a road map for which welfare changes are possible and which are not laying out a framework for welfare as America enters the twenty first century **Making Movies Black** Thomas

Cripps,1993-05-20 This is the second volume of Thomas Cripps s definitive history of African Americans in Hollywood It covers the period from World War II through the civil rights movement of the 1960s examining this period through the prism of popular culture Making Movies Black shows how movies anticipated and helped form America s changing ideas about race Cripps contends that from the liberal rhetoric of the war years marked as it was by the propaganda catchwords brotherhood and tolerance came movies that defined a new African American presence both in film and in American society at large He argues that the war years more than any previous era gave African American activists access to centers of cultural influence and power in both Washington and Hollywood Among the results were an expanded black imagery on the screen during the war in combat movies such as Bataan Crash Dive and Sahara musicals such as Stormy Weather and Cabin in the Sky and government propaganda films such as The Negro Soldier and Wings for this Man narrated by Ronald Reagan After the war the ideologies of both black activism and integrationism persisted resulting in the message movie era of Pinky Home of the Brave and No Way Out a form of racial politics that anticipated the goals of the Civil Rights Movement Delving into previously inaccessible records of major Hollywood studios among them Warner Bros RKO and 20th Century Fox as well as records of the Office of War Information in the National Archives and records of the NAACP and interviews with survivors of the era Cripps reveals the struggle of both lesser known black filmmakers like Carlton Moss and major figures such as Sidney Poitier More than a narrative history Making Movies Black reaches beyond the screen itself with sixty photographs many never before published which illustrate the mood of the time Revealing the social impact of the classical Hollywood film Making Movies Black is the perfect book for those interested in the changing racial climate in post World War II American life *Why the Law Matters to You* Christoph Hanisch,2013-08-29 This book presents an answer to the question of why modern legal institutions and the idea of citizenship are important for leading a free life The majority of views in political and legal philosophy regard the law merely as a useful instrument employed to render our lives more secure and to enable us to

engage in cooperative activities more efficiently. The view developed here defends a non-instrumentalist alternative of why the law matters. It identifies the law as a constitutive feature of our identities as citizens of modern states. The constitutivist argument rests on the Kantian assumption that a person's practical identity (its normative self-conception as an agent) is the result of its actions. The law co-constitutes these identities because it maintains the external conditions that are necessary for the actions performed under its authority. Modern legal institutions provide these external prerequisites for achieving a high degree of individual self-constitution and freedom. Only public principles can establish our status as individuals who pursue their life plans and actions as a matter of right and not because others contingently happen to let us do so. The book thereby provides resources for a reply to anarchist challenges to the necessity of legal ordering.
