## **Caring Deciding And Growing:**

**Caring, deciding, and growing** Helen McGinley, Ginn and Company, 1983      Caring, Deciding, Growing Pearson Education Canada, Silver, Burdett & Ginn, Incorporated, 1983-01-01      **Caring, Deciding, and Growing** Helen McGinley, 1983      **Precision Healthcare: Patient Care, Decision Tools, Wearables, Legal and Ethical Issues** Neeraj Gupta, Abdelhameed Ibrahim, Bhavesh Vyas, Shobhna Jeet, 2025-12-19 Precision Healthcare Patient Care Decision Tools Wearables Legal and Ethical Issues emphasises the shift from generalised treatment to individualised data driven care The book explores how intelligent decision support systems wearable technologies and AI enabled tools enhance diagnostics improve clinical outcomes and enable personalised patient monitoring The book offers a comprehensive and future focused examination of the foundations of precision medicine its objectives challenges policy implications and the role of data driven care Chapters also investigate the transformative impact of the Internet of Medical Things IoMT convolutional neural network CNN based respiratory disease detection wearable health architectures and AI ML models for the prediction of neurological cardiovascular and metabolic diseases Further sections highlight advancements in nanomedicine the emerging influence of large language models in clinical workflows and the essential legal ethical and regulatory frameworks ensuring safe and responsible AI integration in healthcare Key Features Explains the foundations policies and challenges of precision medicine Demonstrates IoMT driven healthcare models and disease classification frameworks Presents wearables AI and ML applications for predictive and personalised care Explores nanomedicine LLM enabled clinical tools and emerging digital therapeutics Integrates technical innovation with ethics legal compliance and patient centric values Provides case studies and interdisciplinary research for real world applicability      Children, Families, and Health Care Decision Making Lainie Friedman Ross, 2002 ISSUES IN BIOMEDICAL ETHICS General Editors John Harris University of Manchester Soren Holm University of Manchester Consulting Editor Ranaan Gillon Director Imperial College Health Service London North American Consulting Editor Bonnie Steinbock Professor of Philosophy SUNY Albany The late twentieth century has witnessed dramatic technological developments in biomedical science and the delivery of health care and these developments have brought with them important social changes All too often ethical analysis has lagged behind these changes The purpose of this series is to provide lively up to date and authoritative studies for the increasingly large and diverse readership concerned with issues in biomedical ethics not just health care trainees and professionals but also social scientists philosophers lawyers social workers and legislators The series will feature both single author and multi author books short and accessible enough to be widely read each of them focused on an issue of outstanding current importance and interest Philosophers doctors and lawyers from several countries already feature among the contributors to the series It promises to become the leading channel for the best original work in this burgeoning field this book Lainie Friedman Ross presents an original and controversial examination of the moral principles that guide parents in making health care decisions for their children and

the role of children in the decision making process She opposes the current movement to increase child autonomy in favour of respect for family autonomy She argues that children should be included in the decision making process but that parents should be responsible for their children s health care even after the children have achieved some threshold level of competency The first half of the book presents and defends a model of decision making for children s health care the second half shows how it works in various practical contexts considering children as research subjects and as patients organ donorship and issues relating to adolescent sexuality Implementation of Ross s model would result in significant changes in what informed consent allows and requires for paediatric health care decisions This is the first systematic medical ethics book that focuses specifically on children s health care It has important things to say to health care providers who work with children as well as to ethicists and public policy analysts
