Cultivating Personal and Organizational Effectiveness Chiku Malunga, 2012-12-14 Cultivating Personal and Organizational Effectiveness presents a holistic understanding of personal and organizational development. It builds on the African concept of personhood and community known as ubuntu and draws on insights from the wisdom contained in African proverbs. Malunga shows that the human spirit is the missing link or ingredient in most change efforts and initiatives. Most individuals and organizations are not able to surface identify and confront their shadows to enable lasting transformation because they do not go deep enough to touch and unleash the human spirit. Cultivating Personal and Organizational Effectiveness aims to raise the consciousness of the significance of the human spirit in personal and organizational development. The book discusses the concept and indispensability of the human spirit, the stages of spiritual development, ways to cultivate the human spirit, and the place of the human spirit in personal and organizational effectiveness.
