Current Issues In Expert Systems International Lecture Series In Computer Science:

    Current Issues in Expert Systems Axel Lamsweerde,Pierre Dufour,1987 Early work in artificial intelligence was mainly concerned with general problem solving procedures The application of these procedures to large real world problems was at first unsuccessful Major progress was later made by allowing the problem solving process to make use of separate explicit sources of knowledge concerning highly specific problem domains This gave rise to a first generation of expert knowledge based systems The next step was to improve the power and flexibility of the various knowledge processing techniques and to develop effective software and hardware architectures to implement them efficiently This major challenge remains at the core of many of the fifth generation computer projects   **Current Issues in Expert Systems** Axel Lamsweerde,Pierre Dufour,1987 Early work in artificial intelligence was mainly concerned with general problem solving procedures The application of these procedures to large real world problems was at first unsuccessful Major progress was later made by allowing the problem solving process to make use of separate explicit sources of knowledge concerning highly specific problem domains This gave rise to a first generation of expert knowledge based systems The next step was to improve the power and flexibility of the various knowledge processing techniques and to develop effective software and hardware architectures to implement them efficiently This major challenge remains at the core of many of the fifth generation computer projects   *International e-Conference of Computer Science 2006* Theodore Simos,2007-04-30 Lecture Series on Computer and on Computational Sciences LSCCS aims to provide a medium for the publication of new results and developments of high level research and education in the field of computer and computational science In this series only selected proceedings of conferences in all areas of computer science and computational sciences wil   <u>Expert Systems Review for Business & Accounting</u> ,1987   **Database and Expert Systems Applications** Norman Revell,A Min Tjoa,1995-08-23 This book is about Drosophila retrotransposons which were the first eukaryotic mobile DNA elements discovered at the molecular level Both passive and active inhabitants of the eukaryotic genome they can influence its stable components and at the same time be subject to various types of cellular control The book covers different aspects of their structure and expression replication and transpositions their interaction with the host cell their role as important factors of genetic instability and essential contributors to the structure and evolution of the Drosophila genome   <u>Bibliographic Guide to Computer Science</u> ,1991   **Infrastructures for Virtual Enterprises** Luis M. Camarinha-Matos,Hamideh Afsarmanesh,2013-03-09 The area of virtual organizations and industrial virtual enterprises in particular is attracting a large and growing interest both in terms of the research and development and the implementation of new business practices An ever increasing number of international projects and national initiatives have been launched recently Most of the earlier efforts are focused on the development of supporting infrastructures although more and more initiatives now pursue the exploitation of this concept in business terms Being a recent research and development area and in spite of the mentioned

interest there is a lack of a structured and comprehensive text that can be used as a reference source Most available literature is dispersed in several conference proceedings journals and book chapters This book represents an attempt towards such structured text Although the book was prepared in the framework of PRO VE 99 a working conference on infrastructures for virtual enterprises organized by the Esprit project PRODNET II and IFIP it has the goal of covering more generic VE requirements and addressing several other approaches and important aspects in this paradigm   *Introduction to Expert Systems* Peter Jackson,1999 In May 1997 IBM s Deeper Blue defeated the world chess champion Gary Kasparov showing that an artificial intelligence system can outplay even the most skilled of human experts Since the first expert systems appeared in the late sixties we have seen three decades of research and development engineer human knowledge to more practical ends in a pioneering effort that has integrated diverse areas of cognitive and computer science Today expert systems exist in many forms from medical diagnosis to investment analysis and from counseling to production control This third edition of Peter Jackson s best selling book updates the technological base of expert systems research and embeds those developments in a wide variety of application areas The earlier chapters have been refocused to take a more practical approach to the basic topics while the later chapters introduce new topic areas such as case based reasoning connectionist systems and hybrid systems Results in related areas such as machine learning and reasoning with uncertainty are also accorded a thorough treatment The new edition contains many new examples and exercises most of which are in CLIPS a language that combines production rules with object oriented programming LISP PROLOG and C are also featured where appropriate Interesting problems are posed throughout and are solved in exercises involving the analysis design and implementation of CLIPS programs This book will prove useful to a wide readership including general readers students and teachers software engineers and researchers Its modular structure enables readers to follow a pathway most suited to their needs providing them with an up to date account of expert systems technology Peter Jackson is Director of Research at West Group a division of The Thomson Corporation and the leading provider of information to the US legal market Peter drives the application of natural language and information retrieval technologies to the information needs of law and business Previous appointments include Principal Scientist at the McDonnell Douglas Research Laboratories in Saint Louis Missouri and Lecturer in the Department of Artificial Intelligence at the University of Edinburgh Scotland   **Multi-attribute Decision Making Via O.R.-based Expert Systems** Ralph L.
