A Matter of Detail Andrew Brandel, Veena Das, Sandra Laugier, Perig Pitrou, 2025-11-25 A Matter of Detail inspires new ways of thinking about detail by bringing anthropology philosophy art history and aesthetics into direct conversation Co editors Brandel Das Laugier and Pitrou challenge a long standing assumption that the history of detail begins with European modernity and follows a teleological course from an object of scorn to a sign of the good In its place they offer a history of attention to detail that draws on classical and vernacular histories and traditions found in grammar ritual and poetics around the world Emphasizing detail as a method and moving between its usage as a noun detail and a verb detailing enables them to tell stories about the reassembly of detail across accidents contingencies and unintended consequences From this vantage the book argues that details are not always small and insignificant Rather there

is a dynamic relationship between the minute and the grand detail and surface which makes the proliferation of details threatening to the idea of an authoritative and integrated imagination of the whole This expanded context generates ways of conceiving detail as a conceptual and moral mode of self formation and being toward others both human and non human
