Determinate Sentencing Pamala L. Griset, 1991-01-01 This book discusses in depth the rise and fall of the determinate ideal once heralded as a replacement to the old order of criminal justice Using new materials and combining political empirical and theoretical perspectives Griset examines the attempt in New York State to establish determinate sentencing punishment for its own sake to replace the existing policy of rehabilitation In portraying New York s experience against the backdrop of a national reform agenda she analyzes the development and ultimate failure of a major social movement

Encyclopedia of Community Corrections Shannon M. Barton-Bellessa, 2012-04-17 In response to recognition in the late 1960s and early 1970s that traditional incarceration was not working alternatives to standard prison settings were sought and developed One of those alternatives community based corrections had been conceived in the 1950s as a system that might prove more progressive humane and effective particularly with people who had committed less serious criminal offenses and for whom incarceration with constant exposure to serious offenders and career criminals might prove more damaging than rehabilitative The alternative of community corrections has evolved to become a substantial part of the criminal justice and correctional system spurred in recent years not so much by a progressive humane philosophy as by dramatically increasing prison populations court orders to fix overextended prison settings and an economic search for cost savings Although community correction programs have been in place for some 40 years now to date no comprehensive reference resource has tackled this topic Accessible and jargon free and available in both print and electronic formats the one volume Encyclopedia of Community Corrections will explore all aspects of community corrections from its philosophical foundation to its current inception Features Benefits 150 signed entries each with Cross References and Further Readings are organized in A to Z fashion to give students easy access to the full range of topics in community corrections A thematic Reader s Guide in the front matter groups entries by broad topical or thematic areas to make it easy for users to find related entries at a glance In the electronic version the Reader s Guide combines with a detailed Index and the Cross References to provide users with convenient search and browse capacities A Chronology in the back matter helps students put individual events into broader historical context A Glossary provides students with concise definitions to key terms in the field A Resource Guide to classic books journals and web sites along with the Further Readings accompanying each entry guides students to further resources in their research journeys An Appendix offers statistics from the Bureau of Justice

The Implementation of the California Determinate Sentencing Law Jonathan D. Casper, David Brereton, David J. Neal, 1982 On July 1 1977 California began a major reform in its policy dealing with prison sentences The Uniform Determinate Sentence Law to be referred to here as the DSL became effective on this day replacing a system of indeterminate sentencing to be called here ISL that had been in existence for sixty years The new DSL thus radically changed the process under which prison term lengths were set and removing some of the extraordinary uncertainty characterizing the open ended sentences of

the ISL It is clearly early to begin the process of attempting to assess the effects of the California DSL as only a few years have passed since it went into effect and its ultimate impacts may take years to be fully worked out In addition to providing information about how the new law has affected and been mediated by court disposition processes we also are concerned with a somewhat broader issue that of the impact or implementation process in general How does the impact of California DSL inform us about the general process by which public policy is made at the legislative level and then translated into behavioral changes by other decision makers whose job it is to implement the policies of the legislature How in this case does implementation of the DSL illuminate the process by which sentencing policy is made implemented and modified as time goes by
