Carter, E. Ljunggren, 2011-01-01 The agriculture sector around the world has experienced profound changes in recent years This unique and path breaking Handbook draws together the best current research in the area of entrepreneurship in agriculture food production and rural development Agriculture policy reforms have impacted farm incomes while demand side changes have required the development of sophisticated market driven strategies Farmers have demonstrated uneven abilities to adapt and adjust to these ongoing changes The ability and propensity of farmers to engage in entrepreneurial behaviors is a key explanation of the different patterns of responses within the sector This book examines these issues through three main themes The first theme focuses on the firm and the individual entrepreneurs exploring entrepreneurship within the farm sector The second takes a sector and industry perspective exploring new developments in food production and distribution systems The third theme explores the inter

relationship between agricultural entrepreneurship and its spatial context Contributions are drawn from international research settings Scandinavia Europe Asia North America Australasia and offer an interdisciplinary approach to the subject This astute Handbook which will challenge and enrich the current literature will appeal to academics in entrepreneurship small business studies agriculture rural studies rural sociology and agricultural economics as well as food industry economists policymakers and all those interested in supporting agricultural and rural businesses

Understanding Social Entrepreneurship Jill Kickul, Thomas S. Lyons, 2012-03-22 Social entrepreneurship involves the application of business practices to the pursuit of social and or environmental mission It brings the mindset principles strategies tools and techniques of entrepreneurship to the social sector yielding innovative solutions to the vexing problems facing society poverty hunger inadequate housing and homelessness unemployment and under employment illiteracy disease environmental degradation etc It finds solutions where government and private sector efforts have not This intriguing field has captured the imaginations of thousands of business and public administration students around the world leading to the creation of hundreds of courses and programs of study to meet this burgeoning demand Yet there are few if any textbooks that offer a comprehensive treatment of this subject Instructors are forced to cobble together reading materials from multiple sources creating a hardship for professors and students alike This book is aimed at addressing this problem Available with Instructor s Manual PowerPoint s and Testbank

Redefining Innovation Ruchin Kansal, Jeff Huth, 2018-05-11 Most people marvel at the level of innovation demonstrated by the biopharmaceutical industry in bringing new products to the market especially in the past 20 years However there is a crisis looming in the industry that should be a concern to all of us who take for granted the constant pace at which new treatments and increasingly cures have emerged from the laboratories of current sector incumbents In the book we examine the evolution of the biopharmaceutical industry to understand how it became what we term a unicorn industry with a unique US centered business model that has led to multiple blockbuster products aka unicorns year after year We explore how past success has created perceived barriers to innovation diversification beyond the chemical or biological based biopharmaceutical product and highlight the warning signs of the industry s decline We define a potential pathway for transforming the industry s business model by broadening the definition sources and enablers of innovation beyond the traditional biopharmaceutical product We introduce and advocate for the 80/80 Rule Being 80% confident that you will only be 80% right the first time should feel normal The 80/80 Rule is a theme that emphasizes speed and willingness to embrace uncertainty and overcome internal barriers to change It sets the standard for redefining innovation as a platform to reignite growth of the biopharmaceutical industry

Transcending Cultural Frontiers Norhayati Zakaria, Asmat-Nizam Abdul-Talib, Andrea Amelinckx, 2020-07-19 This book focuses on the cultural challenges often faced by international managers and global business operations In the last few decades the world has witnessed unprecedented economic turmoil volatility and uncertainty which has altered the political dynamics and sociocultural landscape around the

globe and directly or indirectly affected international business activities Further new markets have opened up in every corner of the world Brazil Russia India and China collectively known as BRIC are strong emerging economic powers similar to the once captivated Asian Tigers such as Hong Kong Singapore South Korea and Taiwan which rose decades ago The emergence of these markets has heightened both the opportunities and challenges for national and international businesses Multinational firms are gradually expanding in the emerging markets and are expected to become giants in the foreseeable future As they expand they also need to assume increasing social responsibilities in a global context and it is important that the ways business is conducted are developed accordingly As such understanding the practices challenges and strategies that companies have developed is critical to global firm s success Against this background the book highlights the importance of understanding cultural elements when managing multicultural human behaviors in the workplace Based on conceptual and empirical work it pushes the frontiers of knowledge of this emerging field in international business setup and management and explores how globalization is changing the way in which multinational firms formulate their business strategies The editors of this text bring a wealth of expertise in this area as is evidenced by their choice of topics and the strength of the experts they have invited to contribute to the book The combined chapters provide both strategic guidance as well as a focus on operational concerns that may arise in international business including expatriation and human resource mobility The authors not only correctly identify the oncoming challenges but also present evidence regarding the likely solutions such as culture and innovation and global change management Overall this book will be a tremendous resource for scholars in the international business field but I believe the audience will be much wider The international team of editors and authors bring a wide range of perspective as well as real world contextual knowledge that will be useful for scholars and practitioners who seek to leverage culture and human capital to advance international business and drive the global economy I applaud the editors for their vision and leadership in guiding us through one of the most challenging contemporary research areas and through one of the most pressing challenges of our day Dr Richard L Griffith Executive Director Institute for Cross Cultural Management Florida Institute of Technology Melbourne FL USA

New Venture Creation Marc H. Meyer, Frederick G. Crane, 2013-01-04 Structured around the idea that innovation is at the core of successful entrepreneurship this insightful guide by Meyer and Crane establishes innovation as a necessary first step before writing a business plan or developing a financial model With a focus on pragmatic methods for gaining industry and customer insight and translating this insight into innovative product and service solutions Meyer and Crane help students design robust business models financial projections business plans and investor presentations *New Venture Creation* is devoted to helping students develop compelling business ideas This is based not only on the authors well known research in product and service innovation but also on their extensive experience as successful entrepreneurs and investors In the updated Second Edition part I guides students through six elements that comprise a clearly defined and focused venture defining your target industry defining your target customers

defining the needs and wants of those customers defining winning product and service solutions carefully designing a strong business model determining competitive positioning and then testing the entire concept against a small population of target customers all before writing the plan Think design test and learn are the guiding principles Part II then focuses on different types of investors and the process for raising capital creating realistic financial projections writing a concise but powerful business plan organizing the venture team and creating a compelling pitch that speaks to the needs and concerns of investors The book also includes a number of independent case studies that focus on product service and business model innovation all from recent ventures by students as well as recent college or master s level graduates *Corporate Venturing* Zenas Block,Ian C. MacMillan,2003-12 This is a reprint of a previously published work This book describes how established firms innovate through corporate venturing **New Venture Strategies** Karl H. Vesper,2009 There exists a variety of ways of working at entrepreneurship some of which offer more promise of success than others This text suggests patterns for organizing the existing entrepreneurial examples in order to help potential entrepreneurs see what options are available to them The analyses present data concerning both success and non success as well as conceptual schemes for analyzing and for developing entrepreneurial action in order to offer strategies for business entry whether by startup or acquisition Often used as a textbook this work is also cited in the research literature in part because of its synthesis of prior research Organizes the prior research into a framework that includes the following components Perspectives on Entrepreneurship which points out eight different types of entrepreneurs Success and Failure Factors Career Departure Points the different points in life at which individuals start ventures Sequences in Startups Sources of Venture Ideas Evaluating Venture Ideas Competitive Entry Wedges advantages that new firms use to break into a market Acquisition Finding and Dealing Corporate Entrepreneurship and Public Policies Categorizes entrepreneurs into eight different types solo self employed individuals including Mom n Pop operators trades people and high hourly rate professionals deal to dealers serial and portfolio entrepreneurs team builders whose who go on to build larger companies using hiring and delegation independent innovators who create companies in order to develop produce and sell their own innovations and inventions pattern multipliers those who spot an effective business plan possibly originated by someone else and multiply it to realize profits on additional such ventures economy of scale exploiters who locate in lower rent and tax areas and reduce services in order to reduce prices which makes it more difficult for competitors to enter capital aggregators who initiate such ventures as banks or insurance companies by pulling together a substantial financial stake and acquirers who acquire a going concern The analysis of success and failure concludes that performance depends on a number of factors such as the right time and place education and experience working with partners starting with greater capital and applying better management practices While many sequences are possible for creating new ventures generally five key elements must be recruited by the entrepreneur in order to start the venture idea physical resources technical know how in the particular line of work personal contacts critical to the

business and sales orders from customers The venture idea is one of the most difficult ones to acquire and most important because if it is good it facilitates the acquisition of the remaining ones The analysis of sources of venture ideas offers eight suggestions that can increase the odds of discovering a good idea by taking action rather than passively waiting for fortunate coincidence Four sets of factors primarily determine why entrepreneurs choose some ventures rather than others head start factors apparent feasibility cost factors and payoff potential of the business Key questions include how much can be made how much can be lost and how likely breakeven can be attained There are general types of advantages most new companies use to break into the stream of established commerce The study presents three main economic entry wedges introduction of a new product of service parallel competition not involving anything really new but employing lesser differentiation and franchise entry Eleven more entry wedges can be regarded to some extent as variants of the main wedges presented These wedges can be grouped into four categories exploiting partial momentum customer sponsorship parent company sponsorship
