

The Aristotelian and Galilean Conceptions of Vertical, Horizontal and Projectile Motions

Physical Science

Conceptions I

Benedictus de Spinoza

Conceptions I:

Ethics, Economy and Social Science Balihar Sanghera, Gideon Calder, 2022-07-18 This book is a collection of critical engagements with Andrew Sayer one of the foremost postdisciplinary thinkers of our times with responses from Sayer himself Sayer's ground breaking contributions to the fields of geography political economy and social theory have reshaped the terms of engagement with issues and debates running from the methodology of social science through to the environment and industrial development to the ethical dimensions of everyday life Transatlantic scholars across a wide range of fields explore his work across four main areas critical realism moral economy political economy and relations between social theory normativity and class This is the first full length critical assessment of Sayer's work It will be of interest to readers in sociology economics political economy social and political philosophy ethics social policy geography and urban studies from upper undergraduate levels upwards

Linguistic and Philosophical Perspectives about Reference Ana Clara Polakof, 2025-11-13 Linguists and philosophers engage in a conversation about four questions in relation to reference What is reference Is there reference to the abstract Is there sentential reference Is there reference to time

The Collected Works of Spinoza, Volumes I and II Benedictus de Spinoza, 2016-06-13 The Collected Works of Spinoza Complete Digital Edition combining volumes I and II provides for the first time in English a truly satisfactory edition of all of Spinoza's writings with accurate and readable translations based on the best critical editions of the original language texts done by a scholar who has published extensively on the philosopher's work The first volume contains Spinoza's single most important work the Ethics and four earlier works the Treatise on the Emendation of the Intellect the Short Treatise on God Man and His Well Being Descartes Principles of Philosophy and Metaphysical Thoughts Also included are Spinoza's letters from the periods when these works were being written The centerpiece of the second volume is Spinoza's Theological Political Treatise a landmark work in the history of biblical scholarship the first argument for democracy by a major philosopher and a forceful defense of freedom of thought and expression This work is accompanied by Spinoza's later correspondence much of which responds to criticism of the Theological Political Treatise The volume also includes his last work the unfinished Political Treatise which builds on the foundations of the Theological Political Treatise to offer plans for the organization of nontyrannical monarchies and aristocracies The elaborate editorial apparatus including prefaces notes glossary and indexes assists the reader in understanding one of the world's most fascinating but also most difficult philosophers Of particular interest is the glossary index which provides extensive commentary on Spinoza's technical vocabulary A milestone of scholarship more than forty five years in the making The Collected Works of Spinoza is an essential edition for anyone with a serious interest in Spinoza or the history of philosophy
