Dutch In America:

The Dutch in America, 1609-1974 Gerald Francis De Jong, 1975 Traces the history of Dutch Americans discussing why each wave of immigrants left Holland where they settled and their way of life in and contributions to their new country from colonial times to the present The Dutch in America Gerrit J. TenZythoff, 1976 The history of the Dutch in the New World from 1664 to the present describing their contributions to their adopted homeland and culture as farmers traders fighters and artists **The Story of New Netherland** William Elliot Griffis, 1909 The Dutch American Identity Terence Schoone-Jongen, 2008 Each year thousands of communities across the United States celebrate their ethnic heritages values and identities through the medium of festivals Drawing together elements of ethnic pride nostalgia religious values economic motives cultural memory and a spirit of celebration these festivals are performances that promote and preserve a community s unique identity and heritage while at the same time attempting to place the ethnic community within the larger American experience Although these aims are pervasive across ethnic heritage celebrations two festivals that appear similar may nevertheless serve radically different social and political aims Accordingly The Dutch American Identity examines five Dutch American festivals three of which are among the oldest ethnic heritage festivals in the United States in order to determine what such festivals mean and do for the staging communities Although Dutch Americans were historically among the first ethnic groups to stage ethnic heritage festivals designed to attract outside audiences and despite the fact that several Dutch American festivals have met with sustained success little scholarship has focused on this ethnic group s festivals Moreover studies that have considered festivals staged by communities of European descent have typically focused on a single festival The Dutch American Identity thus on the one hand seeks to call attention to the historical development and current sociocultural significance of Dutch American heritage festivals On the other hand this study aims to elucidate the ties that bind the five communities that stage these festivals together rather than studying one festival in isolation from the others Creatively combining several methodologies The Dutch American Identity describes and analyzes how the social political and ethical values of the five communities are expressed performed acted out represented costumed and displayed in their respective festivals Rather than relying on familiar even stereotypical notions of the Midwest rural America conservative America etc that often appear in contemporary political discourse Schoone Jongen shows just how complex and contradictory these festivals are in the ways they represent each community At the same time by placing these festivals within the context of American history Schoone Jongen also demonstrates how and why each festival is a microcosm of particular cultural social and political developments in modern America The Dutch American Identity is an important book for sociology performance studies folklore immigration history anthropology and cultural history collections The Dutch and America ,1982 *The Dutch in America, Sixteen Nine to Nineteen Seventy-Four* Gerald F. Boer, Burgher, Businessman Maren Dingfelder Stone, 2007 The study is an imagological analysis of Dutch immigrants in the United States giving insights into stereotyping identity formation and the marketing of ethnicity Tracing Dutch American literary images through four centuries of writing in America the study emphasizes the continuity of Dutch American history The assessment of images in their socio cultural context reveals the disparity between literary and socio cultural perception the latter of which often evokes Dutch ethnicity in the United States as a mere means to an end While the study ascertains which images of Dutch Americans have dominated public perception it also investigates the origins of such images their persistence irrespective of time and location and the reasons for their fluctuating interpretations
